PRINTERS, PUBLISHERS, BOOKSELLERS AND STATIONERS,

182 BALTIMORE STREET.

1880.

NOTICE.

IN again presenting our Spring Catalogue, we do so with much pleasure, having added largely by importation of everything new and valuable among the various classes.

We especially offer to the notice of our patrons many extremely rare and beautiful plants, suitable for the green-house as well as for bedding out.

When selections are left to ourselves, the very finest varieties will be sent, and the most vigorous plants.

After many years' experience in packing and forwarding plants to distant countries, we flatter ourselves we can pack both economically and safely for any distance.

No charge is made for boxes or packing.

The greater part of the new plants, and nearly all the bedding plants, can be forwarded by mail at the prices quoted; on their reception they should be potted and placed in a frame or greenhouse to recover the effects of the journey. To Florists and Nurserymen who wish new plants, the mail offers the greatest facility for obtaining such, as they know how to care for them on their arrival. Amateurs who have no means of caring for plants after a journey through the mail, as well as all persons requiring a considerable quantity of plants of a larger size, had better have their orders by express. If left to me, I will forward in such way as I deem best for the purchaser.

In all orders by express, good plants are added in proportion to the value of the order or distance. Persons getting up clubs will be liberally rewarded with choice plants in proportion to the amount remitted.

The prices at which some of the new plants are offered, may appear high to persons unacquainted with the importation of these articles. For such we have to pay high prices in Europe, adding duty, freight, risks, &c., to justify which when first offered, the price should be proportionate—though we make it at the lowest possible rates, and as stock increases the price is reduced. Older and standard varieties are offered at our usual very moderate rates.

Orders intended for mailing should be accompanied with a remittance, but in express orders the purchaser may remit, or the article will be forwarded C. O. D. at his option.

Write your name plainly; give post-office, county and State, whenever you write, no matter how frequent.

Customers who fail to receive a catalogue in due time, will please inform us of the same, that a copy may be sent, as catalogues are frequently lost in the mails.

We charge for plate with catalogue to applicants who have not previously purchased, but when, however, orders are subsequently sent, the price of the catalogue will be allowed.

This catalogue annuls prices in all former issues.

February, 1880.

JOHN SAUL.

CATALOGUE

OF

New, Rare and Beautiful Plants.

New, Rare and Beautiful Plants.

- * ROSE, JULES CHRETIEN, (SCHWARTZ.)—*New Hybrid Perpetual.*—
See Colored Plate.

An exceedingly beautiful flower, very bright crimson shaded with purple; very large, full, and of the finest form, among dark brilliant roses this is the finest. A vigorous grower and free bloomer—will be largely grown. A superb rose. Ready in April. 75 cents each.

- * ROSA POLYANTHA.—(*New of 1880.*)—*Mademoiselle Anne Marie de Montravel.*

A beautiful seedling from the Japanese Rose Polyantha. "I was struck with the large trusses of blooms exhibited. I found a great number of plants of it covered with blooms, and on nearly all the branches numerous clusters of flower buds. They had been continually in bloom the whole season, it is a seedling from Rosa Polyantha, (a Japanese species.) The plant, which is dwarf, (being about 1½ feet high,) is vigorous, and what is very remarkable some of the trusses rise about 1 foot above the foliage, and in the bud state on one I counted sixty-five, a number as far as I know very uncommon. The flowers are pure white, and last very long in perfection, they measure about 1½ inches in diameter, are very double, each truss will make in itself a splendid bouquet. It will doubtless make a fine pot rose."—*Jean Sisley, Lyons, France*, \$1 each. Ready in April.

Catalogue of Roses mailed on application.

- * EMILE ZOLA, (LEMOINE.)—*New Pelargonium.*

Truss large and finely formed, color carmine orange, bordered with bright rose, centre with maroon blotch, a vigorous grower, and profuse bloomer—a lovely flower. \$1.00 each. Ready in April.

- * MISS MALLER, (LEMOINE.)—*New Pelargonium.*

Truss large and elegantly formed, flowers pure white, exceedingly chaste and beautiful, a good grower and free bloomer—a charming flower. \$1.00 each. Ready in April.

- * WILLIAM POTTEN, (LEMOINE.)—*New Pelargonium.*

Grand umbels, individual flowers, large and finely formed, color a rich maroon, base of petals veined, a free grower and bloomer. Forms a grand show plant—very fine. \$1.00 each. Ready in April.

*** MIGNONETTE, (LEMOINE.)—*New Pelargonium.***

An elegant variety with fine trusses of beautifully formed flowers, color rose carmine, centre white maroon blotch; a good grower and free bloomer—a showy and beautiful flower. \$1.00 each. Ready in April.

*** LUCIE LEMOINE, (LEMOINE.)—*New Pelargonium.***

A chaste and beautiful new flower, grand umbels of purest white flowers, perfect form and shape, fine compact vigorous habit. This magnificent and distinct flower will be extensively grown. Ready in April. \$1.00.

*** MRS. JOHN SAUL.—*New Pelargonium.*—(Colored Plate in 1878.)**

This beautiful flower, which originated in our establishment, we consider one of the very best in cultivation. It belongs to the new class of "Regal" or "Fringed" Pelargoniums. The habit is compact and very free flowering, producing large trusses of charming flowers. The color is a rich glowing vermilion, with light centre and light margin to the petals. We feel much pleasure in offering this splendid flower. 50 cts.

*** NEW PELARGONIUM "DR. MASTERS."**

A splendid variety, belonging to the group of "Capt Rakes," and others. It is of dwarf sturdy habit, the trusses, which are large, are thrown well above the foliage in great profusion; it is semi-double, the upper petals having large black blotches in the centre, with a narrow margin of rich crimson, the lower petals having a smaller blotch, with a broader margin of the same color as the upper; this will prove most invaluable for market purposes and for bouquets. 50 cents.

*** DUCHESS OF BEDFORD.**

One of the most useful and charming of this highly decorative section of Pelargoniums. Its blossoms are of the purest white, prettily fringed, with a feathered spot of delicate rose in the upper petals. Its habit is dwarf and compact, and the flowers are produced with the greatest redundancy. Added to other qualities, this is one of the best of the early-blooming varieties. 75 cts.

*** NEW PELARGONIUM GLORIA PATRIÆ.**

Color purest white—nearly all white, with a few veins of crimson on upper petals; compact habit, free flowering. An exceedingly chaste and lovely flower. 50 cents.

NEW PELARGONIUM TRIOMPHE DE ST. MAUDE.

Fully sustains its character as one of the best high colored varieties in cultivation. The habit close and short-jointed; it is profuse of bloom, and the flowers are large and of massive substance. These can be grown much more easily, as a general rule, than the more delicate higher bred varieties. Triomphe de St. Maude is a fine conservatory plant, while it is a telling exhibition variety. 50 cents.

NEW DOUBLE GERANIUMS.

*** AMAZONE, (LEMOINE.)—*New Double Geranium.***

Very large and beautiful trusses, color creamy white; from its novel color, fine habit and profuse blooming qualities, will make it largely grown. \$1 each.

*** AUG. POIRIER, (LEMOINE.)—*New Double Geranium.***

Trusses large and spherical, color salmon rose—with bright orange centre—distinct in color, fine habit and profuse bloomer—a superb variety. \$1.00 each.

COMTESSE HORACE DE CHOISEUL, (LEMOINE.)—*New Double Geranium.

Trusses large and finely formed, color salmon orange; dwarf compact floriferous habit, an exceedingly beautiful plant for bedding or pot culture. \$1 each.

DENFERT ROCHEREAU, (LEMOINE.)—*New Double Geranium.

Immense trusses of finely formed flowers; color a fine salmon. A grand plant for bedding, being of compact vigorous habit, a profuse bloomer, and the colors striking and distinct. \$1.00 each.

GENERAL DE GALLIFFET, (LEMOINE.)—*New Double Geranium.

A beautiful habit, colors distinct—orange, base of petals rose, a superb plant for bedding or plant culture, color and habit being most distinct. \$1.00 each.

PAUL BERT, (LEMOINE.)—*New Double Geranium.

Very large and grand umbels of finely formed flowers, color a lovely violet rose; fine habit, excellent for bedding or pot culture. \$1.00 each.

VILLE DE NANCY, (LEMOINE.)—*New Double Geranium.

Enormous trusses of grand finely formed flowers, color tender rose, very chaste and lovely, finest habit. This is a very beautiful plant for pot culture or bedding. \$1.00 each.

AMPHITRITE, (LEMOINE.)—*New Double Geranium.

Trusses large, fine color, alabaster white, neat, compact habit and free bloomer, a very beautiful plant. \$1.00.

HEROINE, (LEMOINE.)—*New Double Geranium.

An exceedingly vigorous free flowering variety, trusses large, flowers of the purest white, a charming variety. \$1.00.

LOUIS POIRIER, (LEMOINE.)—*New Double Geranium.

Very fine large globular trusses of large full flowers, color a salmon rose with bright orange centre, fine habit and free bloomer, very fine. \$1.00.

M. MACHET, (LEMOINE.)—*New Double Geranium.

Large trusses of well formed flowers, color a reddish orange, the lower petals of which are marked with salmon rose, quite a new color, a distinct and fine variety. \$1.00.

M. PASTEUR, (LEMOINE.)—*New Double Geranium.

Fine large trusses of spherical flowers, of a beautiful reddish orange color; a neat compact habit and free bloomer, fine. \$1.00.

PERLE, (LEMOINE.)—*New Double Geranium.

Trusses large flowers finely imbricated, of a soft satiny flesh color, neat habit, profuse bloomer, a beautiful and distinct color. \$1.00.

PSYCHE, (LEMOINE.)—*New Double Geranium.

Grand trusses of semi-double flowers, color a clear bright rose changing to carmine, a superb variety. \$1.00.

The above 14 beautiful varieties sent out by V. Lemoine in 1879 for \$12.00.

	Per plant.
Nymph, (Lemoine.) Immense trusses of pure white, imbricated flowers, delicately tinted; this is the finest of all double whites; a grand flower. Received first-class certificate of Royal Horticultural Society, London.....	0 75
Chas. Hovey. Very large trusses of delicate blush, fine habit and free bloomer; a lovely flower. Received first-class certificate Royal Horticultural Society of London.....	0 50
Ed. About. A fine variety, producing enormous trusses of flowers of a clear coppery red color, paler towards the edges.....	0 50

Senator Bernard, (Lem.) Very large trusses of deep madder-red color....	0 40
Sunshine. Beautiful tender rose, large truss, fine habit.....	0 40
Tintamarre. An excellent bedding variety, producing immense trusses of fine flowers of a cerise red color.....	0 40
White Vesuvius. A sport from <i>Vesuvius</i> , with pearl white flowers; the finest white out for winter blooming.....	0 40
Tricolor. Salmon, striped and ribboned rose and white.....	0 40
The Set of 29 last named for \$12.00.	

NEW BRONZE ZONALE GERANIUM.

*DIAMANT, (LEMOINE.)

An exceedingly beautiful tricolor bronze. Large round leaves, bright yellow, with a rich maroon zone, colors very brilliant, fine habit. This will make a grand bedding plant. \$1.00.

*HERMONIE, (LEMOINE.)

This is a great novelty among Geraniums, a silver tricolor with fine double orange salmon flowers; a most beautiful variety. \$1.50.

*NEW VARIEGATED GERANIUM, "FREAK OF NATURE."

A very unique and attractive variety. Outside of leaves light green, with a large pure white centre; flowers light scarlet; habit very dwarf and spreading. It is undoubtedly far before any other of its class, and the greatest novelty in foliage that has been sent out for years. In the way of "Happy Thought," but very superior in every respect. Awarded Three First Class Certificates. Ready in April. \$1.50.

NEW DOUBLE-FLOWERED IVY-LEAVED PELARGONIUMS.

	Per plant.
Peintre Morot, (new.) An exceedingly beautiful new double Ivy-leaved Geranium—flower ranunculus shaped, white, tinted with lilac, reflex of leaves satin, neat habit, a charming pot plant.....	\$1 00
La Fiancee. A new variety. color a bright lilac, large and double.....	0 25
Lucie Lemoine. Another fine variety, flowers large and double, white, tinged rosy lilac; free bloomer and beautiful variety.....	0 25
König Albert. A very effective form, with flowers of a bright violet-pink color, of good shape and double form.....	0 25
Mme. Emile Galle, (Lem.) Flowers double, pure white, veined; a charming new flower.....	0 40
Mlle. Adrienne Barat, (Lem.) Flowers double, beautiful lilac; a beautiful new variety. First-class certificate Royal Horticultural Society, London.....	0 40

	Per plant.
Perle, (Lem.) A magnificent new double variety, finely formed, color a clear lilac, neat habit, very fine.....	0 40
Sarah Bernhardt, (Lem.) Very large, finely formed double white veined with crimson flowers; a vigorous fine variety. First-class certificate Royal Horticultural Society.....	0 40

NEW HYBRID IVY-LEAVED.

Geant. A fine hybrid, between Ivy-leaved and Zonale. This beautiful new variety has grand bouquets of single brilliant vermilion flowers, very showy and fine.....	0 30
Bijou. An extremely attractive hybrid producing large trusses of full double flowers of a rich bright scarlet.....	0 50

NEW REGAL PELARGONIUMS.

This name is applied to that magnificent group of Pelargoniums the flowers of which are of large size, very rich and showy: a few are double, and although the others are not really double, yet from their fulness of form and the extra number of petals, they have the appearance of being so.

	Per plant.
Beauty of Oxtou. A splendid novelty. The upper petals are of a very rich maroon color, darkly blotched; under petals very dark crimson, shaded with maroon; light centre tinted with rose; all the petals are attractively and regularly margined with white, and beautifully fringed. Flowers large and full, the extra number of petals giving them the appearance of being semi-double.	0 50
Captain Rakes. The trusses of bloom are borne well up above the foliage, and are both numerous and large, whilst the individual flowers are large and full, upper petals deep fiery crimson, flaked with purplish black and bordered with carmine; lower petals clear, bright, fiery crimson.....	0 50
*Dr. Masters. See <i>Novelties</i> .	
*Elegantissimum. A beautiful variety, with large crispy semi-double flowers, of a rich vermilion color, all the petals broadly margined with white.....	0 50
Le 20 Fevrier. In the style of that lovely flower, Prince of Pelargoniums; color brilliant orange vermilion, blotched with maroon on upper petals, lower petals light color, nicely fringed, a magnificent variety, should be largely grown.....	0 50
*Madame Evrard. A most attractive and distinct variety; the flowers are very full, with beautiful crispy petals of an exceedingly bright purplish crimson color, richly spotted with dark maroon.....	0 50
*M. Ph. Zeller. A distinct and showy variety, producing very large and full flowers, of a rich fiery crimson color, bordered with rose and spotted with very dark blackish red.....	0 50
*Mrs. John Saul. See <i>Novelties</i> .	
*Patria. (Prince Arthur.) The upper and lower petals are a rich rosy carmine tint, the former equally marked with a rich crimson spot or blotch. The ground color is finely relieved by the pure light centre, and the margins bounded by a white line or border.	0 50
Queen Victoria. To say that this is handsome conveys but an inadequate idea of it, for it is the most marvellously beautiful and novel variety ever offered. The flowers have peculiarly crispy petals; they are not really double, but from their fulness of form and extra number of petals have the appearance of being so. The color is a rich vermilion, all the petals broadly margined with pure white, and the upper ones blotched with maroon.....	0 50
Striata Elegans. This is one of the large flowered exhibition group of Pelargoniums. The flowers are a magenta-rose, being flaked or	

Per plant,

barred with elegant blue mauve, the top petals have a black feather-like plume. The previous striped flowered varieties in this group were distinguished by white bars upon a rosy-red ground. The one now offered is unique in its combination of color.....	0 50
*Prince of Novelties. This is a double flower, combining novelty and beauty, the usual upper and lower petals of unequal outline are transformed into a flat, circular ray of equalized petals, flower and truss large, the ground color is a brilliant carmine tinted crimson, with a bluish white margin, each petal being marked at the base with a rich dark crimson blotch.....	0 50
Theophrasta. A very beautiful Pelargonium, flowers double crimson, freely produced; a very desirable variety.....	0 50
Ville de Caen. A very novel variety, of a scarlet maroon color; very large pips; fine addition to this class.....	0 50

PELARGONIUMS.—New Varieties with Fringed and Striped Petals.

*"Queen of Stripes," (new.) The flowers are of good outline and substance, well expanded, petals or flower lobes overlapping, ground color elegant bluish white, the petals being finely striped or barred with brilliant carmine-rose, each of the upper ones being marked with crimson lines surmounted with an intense crimson blotch. A charming plant. (Ready in April,).....	1 00
*Mad. Gustave Henri, (Lem.) A charming new flower; large well formed trusses, color rosy carmine, with white centre, purple blotches on upper petals; very fine and rich. (Ready in April,).....	1 00
*Mad. Chas. Koenig, (new.) Trusses large and fine, color pure white, finely formed. This is a superb variety, which will be extensively grown wherever chaste and lovely white flowers are in demand. (Ready in April,).....	1 00
*Mad. Thibaut, (Lem.) Grand umbels, color rosy lilac with white centre and spotted with crimson; a showy and distinct plant.....	1 00
*Beauty, (new.) Flowers of pure white, upper petals beautifully spotted; neat habit, profuse bloomer, a charming new flower. This fine variety will be largely grown.....	0 75
Crispiflora. White, with rose blotches shaded lilac and blue, and beautifully fringed, a lovely variety in the style of <i>Dr. André</i> , early and profuse bloomer, fine habit; quite a florist's plant.....	0 50
*Candida. White, flaked and striped with amaranth, beautifully fringed, a very chaste flower.....	0 50
*Fantasie. Flowers very large, white, blotched and veined with carmine, fine habit and free bloomer; a lovely variety.....	0 50
*Jean Sisley. Flowers brilliant carmine, white centre, beautifully fringed,	0 50
*Junon. A grand flower, large and striking, color purest white, veined with carmine on upper petals, compact habit, free bloomer; a lovely flower.....	0 75
*Le Democrate. This fine variety has large flowers and trusses, color carmine margined with white, and blotched with maroon, extra fine,	0 50
Lapis Lazuli. Another of those beautiful frilled French Pelargoniums; color bluish white, with scarlet belted blotched, elegantly frilled like <i>Dr. André</i> , equally beautiful with the others described, neat habit, early and profuse bloomer.....	0 50
*Mad. Vibert. Fine black maroon blotches, bordered fiery red, the flower entirely edged with rose, vigorous grower, fine habit and free bloomer; a grand flower.....	0 50
*Marie Lemoine. A very beautiful variety, large truss and flower, color white, beautifully fringed; in the way of <i>Empereur des Pelargoniums</i> , but of much finer form and greater substance; <i>extra fine</i>	0 50
Prince of Pelargoniums. This most beautiful variety resembles, in its style of flower, the well-known <i>Dr. André</i> , by its elegantly fringed	

Per plant.

- margin and equally large flowers, but greatly exceeds it in effect in being a brilliant vermilion-scarlet ground color, finely relieved by a bluish white centre with violet veins, and flushed with rich crimson on the upper flower lobes, producing its flowers in great profusion.... 0 50
- Princess of Wales.** A very handsome variety with elegant frilled petal margins, in the style of *Dr. André*: flower trusses large size, and borne in profusion well above the foliage; ground color pure bluish, each petal alike marked with a rich dark velvet crimson-scarlet margined blotch. This is unquestionably one of the most beautiful flowers ever raised..... 0 40
- *Progress.** Pure white, beautiful rose spot on all the petals; neat, floriferous, exceedingly distinct and striking; extra fine..... 0 50
- *Star of the East.** A very fine variety, resembling the *Princess of Wales*; it is equally free and compact in growth, with an equal profusion of bloom, but with larger flowers, of pure white ground. The petals are elegantly fringed, the upper ones marked with a rich crimson spot, and the under ones elegantly pencilled with violet colored lines..... 0 50
- *Reveil de la France.** Flowers snow-white, spotted with rosy-carmine; a delicately beautiful variety, will be largely grown..... 0 50
- *Triomphe.** A very showy flower, vivid carmine with a maroon blotch, and marbled; a free grower and bloomer, a very attractive flower.... 0 50
- *Triomphe de St. Maude.** See *Novelties*.
- *Signor E. Montabone.** Large and finely formed flower, rich rose color with a large white centre; upper petals blotched maroon, lower veined very fine 0 50
- *Volunte National.** An exquisite Pelargonium, of a fine, free yet compact habit, and produces numerous large and symmetrical trusses of bloom, flowers white with a warm salmon pink blotch on each segment, margins and throat pure white, petals fringed..... 1 00

NEW SHOW PELARGONIUMS.

- *Captain Cook.** Very large umbels, of a rich orange carmine, centre lilac white, upper petals lightly blotched, a very fine variety..... 0 50
- *Copernic.** Flowers flesh white, upper petals blotched with purple carmine, lower petals blotched and reticulated with crimson..... 0 50
- *Istmo de Suez.** A flower of great effect, fiery orange with rose centre, upper petals blotched with fiery maroon, surrounded with fiery orange, superb..... 0 50
- *Jean Bart.** Vermilion purple, centre white, upper petals blotched with maroon, and edged with white, beautiful..... 0 50
- *Spitfire.** Bright maroon-crimson, shaded with scarlet, light centre, traversed with dark underlines; a rich and effective variety..... 0 50
- *P. Glaucum hybridum, (Lem.)** An exceedingly distinct hybrid Pelargonium; flowers white, spotted and veined with amaranth, a free bloomer, extra..... 0 50
- *Manifestation.** Large, white, reticulated with crimson, vigorous, and free bloomer; a most distinct and striking variety..... 0 50
- *Brongniart.** Large trusses, color pure white, blotched with violet-purple, very rich; an extra fine flower..... 0 75

*Venus. Pure white, fine truss and habit.....	0 75

NEW PLANTS.

*DRACÆNA GOLDIEANA.

One of the most magnificent ornamental-foliaged plants ever introduced, and altogether unique in character and aspect. It is a native of Western Tropical Africa. The plant is of erect habit, and the stems are closely set with stalked spreading leaves, the petioles of which are of a grayish color, terete with a narrow furrow along the upper side, the base being dilated and sheathing the stem. The blade of the leaf is cordate-ovate acuminate, with a yellowish-green costa, and banded with dark green and silver gray in alternate straight or furcate bands, the colors being about equally distributed. The back of the unrolled leaves is a pale reddish-purple or wine color, and the stem where visible at the upper joints is of similar hue, the lower parts becoming green. It is, without doubt, one of the finest of all stove plants and indispensable in all first-class collections.

This magnificent plant was sent out in London in 1878 at 5, 7½ and 10 guineas per plant. Price on application.

*ALOCASIA HYBRIDA.

An exceedingly beautiful hybrid, sent out by Messrs. Veitch & Sons. It is of free growth with exceedingly beautiful foliage with a metallic hue, in the way of *A. Veitchii* but much finer, will make a grand specimen plant for Exhibitions, &c. \$3 to \$5 each.

*ERYTHRINA MARMORATA.

"A free growing, very showy variegated plant, of erect habit, with beautifully colored foliage. The leaves are broader than those of the flowering kinds usually cultivated; they are blotched and spotted with white in a very effective manner.

"The elegant and beautiful appearance of this plant renders it most useful for decorative purposes." \$2.00 each.

*PAVONIA WIOTI.

"A very striking flowering plant. The outer calyx consists of two whorls of narrow slender *bright red* bracteoles, the outer whorl shorter than the inner, which equals the closed corolla. Both the latter and the calyx are of a '*red black*.'

"It flowers continuously throughout the year, but most freely in the winter months; it also commences to bloom when only 2 to 4 inches high, and a small plant has from 20 to 40 blooms open at one time, and thus with its neat habit and pleasing foliage it will be exceedingly valuable for decorative purposes. \$1.50."

*GRAPTOPHYLLUM NORTONII.

"The leaves are of ovate-oblong form, about 6 inches long and 2½ inches broad, and deep glossy green. The mid-ribs are at first light rose, and have

on one or both sides a central blotch of light yellow. As the leaves approach maturity the mid-ribs deepen to crimson, and the blotches become suffused with rose." \$1.00.

***PANAX LACINIATUM.**

An elegant and very distinct habited stove plant from the islands of the South Sea. The leaves are tinted and indistinctly marked with pale olive brown, and form a rather complicated mass of narrow segments; they are bipinnate, nearly as broad as long, and have a drooping contour; and the pinnules or segments are very variable in size and form, presenting the appearance of a complex head of foliage in which the lanceolate lobes or pinnules have the preponderancy. \$1.50.

***CLIDAMIA VITTATA.**

"A splendid foliage plant, having large green leaves with a light band down centre of the leaf, of easy culture and rapid growth." \$1.00.

NEPENTHES, PITCHER PLANT.—*See Orchid Catalogue.*

***DIPLADENIA BREARLEYANA.**

"This splendid variety of Dipladenia is one of the best exhibition plants extant. It is of free growth, and of the most floriferous character, in this respect greatly exceeding any other Dipladenia. It is an evergreen stove climber of the very first rank, and is furnished with opposite oblong acute dark green leaves, which serve as a fine contrast for the superbly colored flowers, which are of the largest size opening pink and changing to the richest crimson color. They have this remarkable peculiarity, that the color increases in intensity with the age of the flowers. Beautiful as were the Dipladenias of some few years since, they have been quite eclipsed by the improved varieties which have been obtained, and amongst these, *D. Brearleyana* is certainly the most distinct and beautiful." \$2.00.

***DIPLADENIA WILLIAMSII.**

A splendid hybrid, an intermediate form between *D. amabilis* and *D. splendens*, Color soft pink or rosy-crimson; it is very profuse; flowers produced in large clusters, the raceme continuing to grow and produce a succession of blooms—a marked and desirable character in this variety. Its free habit of growth and prolific blooming qualities will render it a most desirable plant. \$1.00.

***BERTOLONIA VAN HOUTEII.**

Has the leaves of a rich olive velvet ground color, traversed broadwise by large bars of beautiful magenta red and dotted all over with thousands of spots of the same color. This description will, however, give only a slight idea of the real beauty of this plant. \$1.00.

***BERTALONIA RODECKII.**

An exceedingly beautiful plant, foliage dark velvety green spotted with white; a perfect gem. \$2.00 each.

***NERIUM LILIAN HENDERSON.**—*Oleander.*

This beautiful Oleander is the most prolific bloomer and finest of the white flowered varieties. The flowers are double, full petaled, rose-like in form, with a delicious perfume; small plants blooming freely will cause this plant to be grown largely for decorative purposes as well as being unique for the bouquet. \$1.50 each.

***RUELLIA MACRANTHA.**

A Brazilian plant. Flowers freely of a fine violet-carmine, a pleasing color. This plant is of free growth in a warm house, flowering profusely and showy. One of the very finest winter blooming plants of recent introduction. 75c. each.

ERANTHEMUM LAXIFLORUM.

It is a plant of erect habit, much branched with opposite ovate-oblong leaves, from the axils of which the flowers are produced in cymes of three or more and usually with a pair of bracts. The corolla tube is long and slender, the lobes of the limb nearly of equal size, spreading, and of a purplish crimson, quite unique. The flowers are continuously produced during the autumn and winter months. 50 cents.

***DIEFFENBACHIA NOBILIS.**

The plant is stocky in habit, and well set with spreading leaves. The leaf-stalks are very pale green. The blades are of a deep rich green, marked over the central portion to within about an inch of the margin, with largish angular, irregular and variously confluent white spots, which contrast strongly with the color of the margin and intervening portions. Altogether a strikingly handsome plant of its group. \$1.00 each.

***IXORA REGINA.**

An extremely attractive and distinct variety, freely producing large dense trusses very full of pips, which are of a rich violet salmon color. It is of a dwarf compact habit, and the flowers are of a deep shade of color; the trusses are of a somewhat similar shape to those of *I. coccinea*, but the plant is much more compact in growth than that variety. It is a most superb and effective flowering plant. \$1.00 each.

***IXORA "PRINCE OF ORANGE."**

This variety is distinct in color from any other, and is a valuable addition to this ornamental genus. It is of free compact habit; flowers rich orange-red, tinged with violet towards the centre, and produced in large and dense terminal corymbs. \$1.00 each.

***IXORA FRASERI.**

A most effective and beautiful variety, of free and vigorous growth, with rich dark green foliage and numerous large, terminal, globular flower-heads, with blossoms of a brilliant flamed salmon color, upon carmine scarlet flower tubes, and rich under pedicels or flower stalks. \$1.00 each.

CHOISYA TERNATA.

This is a free growing and beautiful plant, nearly or quite hardy, a profuse bloomer, pure white sweet scented flowers, like orange blossoms. This plant will be largely forced for its flowers, like *Deutzia Gracilis*. 50 cents each.

***CROTON EVANSIANUS.**

"A handsome Croton well distinguished by the peculiar form of its trilobate leaves and the depth of coloring pervading the whole plant. The newest formed leaves are light olive green with mid-ribs and veins of golden yellow, and the inter-spaces spotted with the same color. As the leaves become older, the green deepens and changes to a bright bronzy crimson, and the golden yellow of the midribs, veins and spots becomes a rich orange scarlet." \$3.00 each.

***CROTON HAWKERI.**

"It is of dwarf and compact habit with broadly lanceolate leaves about 6 inches long. The coloring of the plant is very effective. The middle and lower portions of the leaves, together with the footstalks, are light creamy yellow which spread over the greater part of the leaves, the extremities with the edges of the leaves only are bright green; thus the *ensemble* presents a centre of light yellow surrounded by bright green." \$3.00.

***CROTON HANBURYANUS.**

"A new variety of bold and spreading habit, introduced from New Caledonia.

"The leaves are about 15 inches in length and $2\frac{1}{2}$ inches in breadth.

"The coloring is exceedingly varied and attractive; the ground color, a bright olive green in several shades is, in many leaves, quite subordinate to the rich golden yellow and rosy crimson that suffuse the whole plant. All the leaves are beautifully marbled and blotched with these tints.

"A highly effective and beautiful plant to which a Certificate of Merit was awarded by the Royal Botanic Society." \$3.00.

***CROTON MORTII.**

"A strong-growing, robust, and finely-marked variety. The leaves are large, broadest on the upper half, acute or shortly acuminate at the apex, and narrowed to an acute base; they are of a very dark green color, being marked out by a band of golden yellow a quarter of an inch wide, and all the principal veins also being broadly marked with yellow; these latter markings meet near the edge, where there is a variegation of broken reticulated golden lines. The intermediate spaces are freckled with yellow dots." \$3.00 each.

***CROTON WILLIAMSII.**

This is one of the best of the large-leaved Crotons, of free growth, with bold foliage, handsomely marked and richly colored. It is one of the red-tinted series, very strongly flushed with violet crimson. The leaf has a central band and costa of yellow, from which the pinnate veins of the same color branch out on either side, more or less forking and coalescing near the edge. These veins all change to a deep crimson, and the whole plant becomes flushed with a glowing tint of crimson, shaded with violet, which renders it extremely conspicuous, well adapted for decoration, and a strikingly effective plant for exhibition purposes.

***CROTON PRINCESS OF WALES.—(Glorious.)**

This is one of the long-leaved drooping forms of Croton, and is perfectly distinct in character. The leaves are from $1\frac{1}{2}$ to 2 feet in length, sometimes plane, and sometimes strongly undulated. The ground color is green, and the variegation creamy-yellow, very variable in character. In some there is a creamy-yellow mid-rib, with a band on each side; in others the mid-rib is bright green. The markings are of the maculate style, with here and there large blotches of clear cream-yellow, and in other parts clouded markings of smaller confluent blotches and spots. Occasionally these conditions are reversed, and there are longish patches on which the ground color is creamy, relieved by a few clouded green markings.

***CROTON MACARTHURI.**

The leaves are of many forms, some dilated at the base and much narrowed at the opposite end; many have the mid-rib and blade twisted like a spiral, in others the edges are undulated, in others again the extremities are incurved, while there are others in which two or more of these peculiarities are present.

The color is more constant, but the markings on the different leaves are as varied as the forms assumed by the leaves themselves. The habit is *excellent*, and its pleasing and very striking variegation, fully one-half of which is yellow. The mid-ribs are yellow, and the bright green ground of the blades are spotted, blotched, flaked, and barred in infinite variety. \$2.50 each.

***CROTON VARIABILIS, (FALCATUS.)**

A robust variety. It has long leaves, marbled and blotched with different shades of yellow, orange and crimson.

The leaves, both in color and shape, are very variable; some are straight, others recurved, falcate or often distorted, their surface being either smooth or undulated. Some of the shades of color are peculiar to this variety, and are seen in every tint, from deep orange red to light sulphur yellow.

It is quite unlike any other Croton in cultivation. \$2.50 each.

***CROTON FASCIATUS, (HENDERSONII.)**

The ground color is a very deep green, the principal veins being marked by bright yellow lines, interlacing near the edge, where, and especially near the point, the surface is chiefly yellow, with irregular small green spots. The mid-rib forms a brownish yellow band. The green spaces between the yellow veins are more or less freckled with yellow. \$3.00 each.

***CROTON "QUEEN VICTORIA."**

It is of medium growth and free branching habit, a most desirable feature in the formation of good specimens; the leaves when well matured are from 9 to 12 inches long, and about 2 inches broad, oblong lanceolate; the ground color of the leaf is rich golden yellow, beautifully mottled with green; the mid-rib and the primary veins are of a rich magenta color, changing with age to a vivid crimson; the margin of the leaf is unevenly banded with carmine, often extending as far as the mid-rib, and so harmonising with the rich yellow as to produce a gorgeous effect.

***CROTON AUREA-MACULATUS.**

A small-leaved variety of very neat and compact habit.

The leaves are ovate-oblong, not more than 3 inches long and 1½ inches broad, deep but bright green, profusely spotted with golden yellow.

It is quite distinct, and will prove one of the most useful as well as most pleasing additions to this numerous family of decorative plants. \$2.00 each.

***CROTON CHALLENGER, (IMPERATOR.)**

One of the best and most distinct of the long leaved varieties. The leaves are broadly lanceolate, spreading, and slightly recurved. The variegation is very striking. The mid-ribs are at first creamy white, which gradually becomes suffused with red, finally deepening to bright crimson carmine. The ground color of the blade is light green, but much blotched and streaked with light yellow that takes a rosy tint as the mid-rib deepens in color. \$2 to \$3 each.

***CROTON EARL OF DERBY.**

A splendid novelty, with leaves of the *C. Disraeli* form, very highly colored, and quite distinct from every other Croton of its class. The stem during its earlier growth is of a remarkably bright yellow, the petioles and mid-ribs of the three-lobed leaves springing from it are of the same rich color, which also spreads over the greater part of the lamina or blade, the extremity of each lobe being green. As the plant increases in age the color deepens, and finally becomes suffused with red. \$2.00 to 3.00 each.

***CROTON NOBILIS.**

A beautiful variety with long pendulous leaves, richly colored with many tints. The colors are crimson, yellow, and green in many shades, the crimson being predominant in the stems, footstalks of the leaves, and mid-ribs, where it is bordered by bands of deep golden yellow. In the latest growth the prevailing color is sulphur yellow. A noble Croton with gracefully weeping habit. \$1.00 to \$2.50.

***CROTON MOOREANUS.**

The color and markings of the foliage are rich and distinct. The mid-rib and margin of the leaf are of a clear orange yellow, with the blade crossed with parallel bands and stripes of the same color upon a deep green ground; these bands and markings show considerable regularity, and form a distinguishing feature in this variety \$1.50 to \$2.50.

***CROTON ANDREANA.**

A variety of neat habit and free growth. The foliage colors in the most exquisite manner. One of the most beautiful of Crotons. \$2.00.

CROTON DISRAELI.

A most distinct plant, having trilobate leaves, the middle lobe greatly elongated. The coloring of the foliage is rich and varied. In the newer leaves the mid-rib and margin are of a light yellow. As the foliage becomes older, the yellow subsides to a bright orange yellow, the marginal line becoming more defined, and the markings enlarged. In the mature leaves the margin is a bright scarlet, and the mid-rib is striped by a band of the same bright color between two lines of a deep golden yellow, and the blotchings and markings a rich orange yellow, upon a deep green ground. 75 cts. to \$2.50 each.

CROTON BISMARCKI.

A distinct and handsome Croton, the leaf almost panduriform or fiddle-shaped, with the basal half broadest and obovate, the middle part narrowed, and the apex again swollen out into an ovate form. The color is a deep green, with a broad band of golden yellow along the costa, and yellow markings indicating the course of the lateral veins, in addition to which a few slight yellow blotches are scattered over the surface. 75 cts. to \$2.50 each.

PHYLLANTHUS ROSEA-PICTUM.

A fine new plant, with beautifully variegated foliage.

The variegation is exceedingly rich and varied, both in color and form, no two colored leaves showing precisely the same markings with like tints. Many of the leaves are bright crimson, which is also the color of the stem during the early stage of growth; some are a light cream color, tinged with a delicate blush, others again have a dark bronzy hue, shaded with crimson; some are dark green, with blotches and spots of rose while others are tri-colored, white with different shades of rose and green. 50 cts. each.

***NEW VIOLETS.**

Each.

- *Marie de Savoy. The largest of violets, color deep blue with a white centre, very fragrant. This violet will be largely grown by florists; a grand flower. Ready in April..... 0 75
 *Rubra plena. Double red violet, very distinct. Ready in April..... 0 50

*HESPERALOE YUCCAFOLIA OR ENGELMANNII.

A very scarce and beautiful plant from the Nueces River, Texas, which is best described as a Yucca, with red flowers. The discoverer's description is "a large group of these plants with flower stems from 4 to 5 feet in height, covered entirely with beautiful red bell shaped flowers, which we took at the first glance for Yuccas."

*FUCHSIA RAINBOW.—(*New.*)

An extremely pretty variety with attractively variegated leaves, the colors of which are rose, white and crimson on a light green ground. The flowers have a double white corolla contrasted well with the bright carmine tube and sepals, the latter being nicely reflexed. \$1.00.

MISS LUCY FINNIS.

The immense size of the blooms of this variety, equal to *Champion of the World*. Habit, one of the dwarfiest and most graceful among Fuchsias; corolla pure white, very double and immense size; tube and sepals coral red; a few blooms cannot fail to create quite a sensation. 50 cents each.

*VRIESIA BRACHYSTACHYA.

A charming plant, foliage light green with cross bars of a dark green: flowers yellow and crimson, last three months in beauty. \$2.00 each.

*DICHORISANDRA MOSAICA.

An extremely handsome plant, of dwarf habit; leaves large, ground color of the upper side rich deep shining green, traversed with an innumerable quantity of parallel transverse fine white lines; the under side is of a uniform deep purple. It also produces lovely rich azure flowers. \$1.50 each.

DICHORISANDRA UNDATA.

Very distinct from *D. mosaica*, producing large ovate leaves, very dark green in color; the mid-rib and veins are of a lighter green, which gives the leaves a striped or marbled appearance. 75 cents each.

SONERILA HENDERSONII.

A charmingly variegated plant, of dwarf habit. Its leaves are most elegantly studded over with silvery white pearl, or tiger-like spots upon a rich dark olive-green ground. Flowers rosy lilac.

This beautiful plant proves far easier in its management than any of the former species of *Sonerila*. We have found this plant a profuse bloomer during the winter. Florists should grow it largely. 50 cents each.

TORENIA FOURNIERII.

The habit is more compact than *T. Asiatica*, the flowers are richer in color and more freely produced. For pans, baskets or vases, this will be found to be a very useful and interesting plant. It succeeded admirably with us the past summer bedded out. 20 cents each.

TORENIA BELLONII.

A pretty variety similar to the last in habit, and like it, suitable for bedding out. Flowers bright yellow, with a black eye, very distinct. 25 cents.

***TOXICOPHLEA SPECTABILIS.**

A beautiful stove plant with white flowers. It is extremely floriferous, even in the youngest plants; the flowers are produced in very large corymbs, each flower being of a tubular form with expanded limbs. It is very useful for bouquets, being delightfully fragrant as well as beautifully chaste in color. \$1.50 each.

***PHYLLOTÆNIUM LINDENI.**

A fine Aroid discovered by Mr. G. Wallis, in New Grenada, and sent by him to M. Linden, of Ghent. The plant has robust foliage, which is very persistent; the leaves are of a light glossy green, marked by bands of white, which cross the blade in almost parallel lines from a prominent mid-rib of the same color. \$1.00 each.

CLEMATIS INDIVISA.

An evergreen species from New Zealand, of rapid growth, not quite hardy, suitable for a cold greenhouse. It gives in great profusion during winter its small white flowers. 75 cents each.

***SENECIO PULCHER.**

A pretty plant, with rosy-crimson flowers, very showy, flowers late in summer. \$1.00 each.

***VERONICA HENDERSONII.**

A new species introduced from Japan, growth about two feet high, robust habit, foliage broad, of a deep rich green, dense and abundantly produced. The flowers are very large, rich deep violet blue, produced in large cluster heads composed of many spikes, the finest of the herbaceous section of veronicas. \$1.00 each.

VERONICA ELEGANS VARIEGATA.

A very beautiful hardy herbaceous plant with elegantly variegated foliage, long spikes of blue flowers. 75 cents each.

DRACOCEPHALUM RUYSCHIANA.—Var. Japonicum.

"It is a hardy herbaceous perennial, 18 to 24 inches in height, branching from the base. The violet blue flowers, $1\frac{1}{2}$ inch in length, are in terminal verticillasters, intermixed with numerous obovate acuminate leafy bracts.

"It is a very pretty and effective herbaceous plant, and one well adapted for bedding out. We strongly recommend it to all lovers of hardy plants.

"It was introduced to Messrs. Veitch's establishment by Mr. Mariès, and when we saw it in a large patch on one of the sunny slopes of Coombe Wood Nursery, we thought we had seen few, if any finer things of its class." 50 cts. each.

CAMPYLOBOTRYS GHIESBRIGHTI VARIEGATA.

A pretty variegated variety of this beautiful plant. 75 cents.

NEW FERNS.***DAVALLIA FIJIENSIS MAJOR.**

An elegant Fern, native, as its name implies, of the Fiji Archipelago.

It has slender stipes and gracefully arching fronds; the pinnules are finely and beautifully cut, and of a bright green color.

Its graceful habit and cheerful color render it a valuable addition to our lists of Ferns requiring the temperature of the intermediate stove or warm greenhouse. It is one of the most useful of its class either as a basket or pot plant. \$2.00 each.

***ADIANTUM LUDDMANNIANUM.**

A remarkable variety, quite unlike any other Maiden-hair Fern in cultivation. The peculiarity which distinguishes this *Adiantum* from all others consists in the pinnules being crested or agglomerated at the extremities of the stipes and their rachides; they are also much crisped and curled.

Fronds erect, from 8 to 12 inches high; pinnules on short petioles, generally fan shaped, and deep green color. \$1.00 each.

***NEPHROLEPIS DUFFI.**

A beautiful and distinct Fern. The fronds are densely crowded, from 15 to 18 inches long, pinnate, and much crested; the stipes are slender, terete towards the base, and covered with reddish brown downy scales. The pinnæ, which are small, are produced in pairs, one overlaying the other, those above being largest. The compact elegant habit of this Fern and its bright attractive color, render it a most desirable acquisition. \$1.50 each.

***LASTREA ARISTATA VARIEGATA.**

One of the most charming of greenhouse variegated Ferns. It has the same kind of firm leathery fronds as the type, and like it is of a rich dark full green color, which sets off the distinct variegation to much advantage; the variegation consists of a band of pale yellowish green, which runs down the centre of the pinnæ, and includes the mid-rib or rachis. This will no doubt prove to be one of the most valuable of recent introductions. \$1.50 each.

***ADIANTUM SPECIOSUM.**

A very elegant Fern, of semi-scandent habit, with large tripinnate fronds, which frequently attain a length of 36 inches with a width of 21 inches, the pinnules of which are $\frac{3}{4}$ to 1 inch across, the lobes cuneated and soriferous at the apex. The whole of the pinnules are covered with dense short hairs, giving the foliage a woolly feeling when touched. \$1.50.

***ADIANTUM PALMATUM.**

This is one of the finest Ferns of recent introduction. It has the same large pinnules as *A. Farleyense*, and the rachides are similarly slender. It is one of the most elegant Ferns in cultivation, and will be the more popular on account of its comparative hardiness. It was discovered in Peru, at an altitude of more than 10,000 feet, hence the temperature of a warm greenhouse will suit it admirably. \$2.00 each.

***ASPLENIUM NOBILIS.**

This is a graceful Fern with light, lace like pinnæ and arched fronds, which somewhat resembles those of *A. viviparum* or *A. lineatum*. \$1.50.

***DENNSTÆDTIA DAVALLIODES YOUNGI.**

"In its native country it is said to produce fronds 17 feet in length; and as seen in this country under pot culture, it has caudices as thick as one's finger, and fronds 7 or 8 feet in length. To this stout and vigorous constitution, it adds the elegance and gracefulness of minute subdivision, so that its fronds, though large, are utterly devoid of coarseness; while growing to a large size, it is one of the most finely cut of all the large growing sort, of herbaceous texture, and when throwing out its boldly arching fronds, from an elevated position, it has a very fine effect." \$1.50 each.

ARALIAS.

Per plant.

- **Filicifolia*. (new.) An ornamental leaved plant of the first rank, graceful in habit, and well furnished with foliage, and altogether one of the most valuable decorative plants of its family. It is a native of the South Sea Islands. The stem and leaf-stalks are purplish, thickly marked with oblong white spots; the leaf-stalks are sheathing at the base, and terete in the upper part, expanding into a broad leafy limb which is imparipinnately divided; the pinnae themselves are of a bright green with a purplish costa, opposite and deeply pinnatifid 1 50
- **Elegantissima*. A beautiful plant with straight erect stem, furnished at short intervals with digitate leaves on long foot-stalks, mottled with white on a dark green ground; the leaflets, from seven to ten in number, are filiform, deeply and unequally serrate, and gracefully pendulous. The color of the foliage is a deep green shaded with brown; the mid-rib of each leaflet is of greenish white and very distinct..... 2 00
- **Veitchii*. A very elegant plant from the South Sea Islands, producing very narrow digitate leaves, considerably undulated; upper surface deep green, under dark crimson. One of the most beautiful decorative plants in cultivation..... 1 50
- Leptophylla*. A very distinct and fine species, makes a fine decorative plant 1 00
- Guilfoylei*. The bold pinnate leaves are made up of from three to seven stalked oblong-elliptic bluntish leaflets; these leaflets vary in size from two to three inches long, and are neatly and evenly margined with creamy white, the surface being in addition occasionally splashed with gray. A fine and distinct ornamental stove plant..... 0 50
- Reticulata*. A very distinct species, of free growth; a fine decorative plant..... 0 75

ANTHURIUMS.

- **Crystallinum*. It produces large, cordate leaves. The emerald green refulgent leaves are spotted all over with a brighter shade, and bordered by a broad silvery or rather crystal band, which surrounds the intramarginal and four secondary nerves. These dazzling white zones are so distinct and regular that they resemble a border of incrustated silver around the sections of the blade of the leaf. The effect of this highly ornamental plant is most striking. 1 50
- **Regale*. This superb ornamental foliage plant is well deserving a place in every collection. There are several varieties of this plant. The one now offered is the finest; the leaves are heart-shaped, much lengthened out towards the apex, and rich dark velvety-green in color.....\$1 to 2 00
- Magnificum*. The foliage of this plant is truly magnificent, a noble species, with large velvety-green leaves and broad silver veins..50 cts to 1 00
- **Scherzerianum*. One of the most striking and beautiful dwarf-flowering stove plants of recent introduction, producing beautiful brilliant scarlet flowers, each of which remains from two to three months in bloom. This charming and novel plant is easy of culture, and a most abundant bloomer.\$1 to 2 00

ALOCACIAS.

- Macrorrhiza Variegata*. Leaves nearly as large as *Colocasia Esculentum*, broadly splashed with white. Some leaves nearly all white. For easy growth, combined with the rich variegation, makes it a very telling subject for exhibition50 cts. to 1 00

	Per plant.
*Sedeni. "A very beautiful hybrid, between <i>A. Metallica</i> and <i>A. Lowii</i> . The form of the leaf is perfectly intermediate between the two parents, whilst the coloring is a very striking and pleasing combination of the metallic hue of one parent, with the dark green and prominent white veins of the other. A fine foliage plant.....	1 00
*Lowii. A very beautiful plant with large shining foliage. Forms a fine specimen.....	2 00
*Veitchii. The foliage of this plant is exceedingly distinct. A grand show plant.....	1 00
Zebrina. Fine yellow leaf-stalk, with distinct black marks, rendering it a very conspicuous plant. It makes a grand specimen.....	1 00
*Metallica. A plant possessed of great beauty. Large thick shell-like leaves of a bronzy-copper color. It is distinct and admirable in every respect.....	50 cts. to 1 00
Illustris. (<i>Gibsonii</i> .) The leaf-stalks are erect, and have a brownish-purple tint, color a rich green, marked between the principal veins by broad patches of blackish olive, and forming a striking contrast with the brighter green portions of the leaf surface.....	0 50
Jenningsii. A delicate green, over which, between the principal veins, are laid heavy blotches of black, which are remarkably precise in outline and arrangement. 30 cents each.	

DORYANTHES PALMERI.—*Queen's Land Lily*.

An ornamental flowered plant, in style intermediate between the *Yucca* and *Dracæna*, forming a stemless bulbiform rootstock. The flower scape rises from the centre, 8 feet in length, forming densely clothed pyramidal compound racemes, much like those seen in various *Yucca* species. Flowers numerous, approaching in size and form to those of the well known *Vallota purpurea*, from three to four inches in diameter, of a rich peony-crimson hue, with a white centre. Each blossom is accompanied with leaf bracts of an equally rich color as the flower. \$1.00 each.

TABERNÆMONTANA CAMASSA.

(Growers of Flowers for Market should cultivate a house of this plant alone.)

A very desirable shrub of a neat compact dwarf habit, with medium small glossy bright green laurel-like leaves and terminal axillary cymose racemes of double white flowers of Gardenia like outline and fragrance, which are produced on the point of every shoot. The usual temperature of a hot-house with less humidity, will produce blooms more freely and longer in succession. The petals of the flowers are lighter and more elegantly arranged than the Gardenia, and not quite so large; small plants in 3-inch pots will produce flowers freely. 50 cents each.

GREYA SUTHERLANDI.

A beautiful and distinct South African plant, with foliage similar to a Pelargonium; flowers very showy. A really fine and distinct plant. \$1 each.

*SONERILA MARGARITACEA.

A small plant, with bright green leaves dotted all over with white spots—a gem. 60 cents each.

*APHELANDRA FASCINATOR.

A very fine species, with very ornamental foliage as well as magnificent flowers; the leaves are rich dark green, beautifully banded with silvery white, and underneath of an uniform purplish-violet; the spikes of bloom are very large and of dazzling vermilion color. 50 cents each.

PHILODENDRON LINDENIANUM.

Leaves of a delicate satiny green, shaded with metallic olive color on the upper surface, the underpart pale green, ornamented with bands of maroon. The young leaves are of a bright chamois color, and the maroon bands of the under parts penetrate through to the upper, so that the coloring of the plants has a glistening and indescribable effect. 75 cents each.

*POSOQUERIA LONGIFOLIA.

This plant forms an elegant bush, and is very free flowering. Leaves large, somewhat ovate, coriaceous and shining green; flowers tubular, pure white, produced in large corymbs of a dozen and more, waxy like, from 3 to 4 inches long, and deliciously fragrant. It is a beautiful plant. \$1 each.

PAULINIA THALICTRIFOLIA.

A very beautiful plant. It is of a slender growth, producing very freely its beautifully cut leaves, which resemble the fronds of a highly divided Maiden-hair Fern. The matured leaves are of a striking bright green, the young shoots and foliage being of a beautiful rosy tint. 30 to 50 cents each.

ERIOCNEMA MARMOREUM.

Plant dwarf, with habit of some of the Begonias, leaves green, striped with broad bands of white; a beautiful plant. 50 cents each.

CAMPSIDIUM FILICIFOLIUM.

A free growing slender woody climber, from the Fiji Islands. The leaves, from their size and form, are strongly suggestive of fronds of some small growing pinnate Asplenium. The growth and general character of the plant is so elegant that whether cultivated as a small pot plant, trained on globular or other trellises, or planted as a climber, it has a most charming appearance. 25 cts. each.

MACKAYA BELLA.

This most beautiful plant is a native of Natal. The flowers have a pale lilac corolla, nearly two inches long, the throat ornamented with most delicately pencilled reticulated purple veins, tubular below, campanulate. The plant is very floriferous and when in full bloom, appears a mass of most delicate, pendant, campanulate flowers. 40 cts. each.

NEW CLIMBING HYDRANGEA.—(*Schizophragma Hydrangeoides*.)

This is described as clinging to trees to the height of 50 feet, producing corymbs of white flowers of the size of ordinary Hydrangeas. It clings exactly like Ivy, and one can imagine the effect of a wall or tree so covered, while in full bloom. 50 cts. each.

NEW WHITE HYDRANGEA, "THOMAS HOGG."

This, the finest of all Hydrangeas, was sent to the United States by Mr. Thomas Hogg, from Japan. The "American Agriculturist" says: "We think it safe to say, that no ornamental plant ever introduced exceeds this in value."

It belongs to the Hortensia section of the family, but it is a far more free and abundant bloomer than any other; the flowers are of the purest white, of very firm texture, and continues in flower for a great length of time. 25 cents each.

*HYDRANGEA J. ELEGANTISSIMA.—(New.)

A very beautiful new variegated Hydrangea, foliage striped, spotted, and splashed with yellow, very handsome. 75 cts. each.

*CYANOPHYLLUMS.

Per plant.

- *Magnificum. A grand specimen plant, having large beautiful foliage. 50 cts. to 1 50
- *Spectandum. A grand plant with large velvety leaves, and whitish ribs which grow to an immense size and are very attractive. A fine plant for flower shows, fairs, &c., as it makes a beautiful specimen..50 cts. to 1 50
- *Assamicum. A very beautiful foliage plant, large fine foliage..50 cts. to 1 50

*SPHÆROGYNE LATIFOLIA.

A plant with the grandest possible foliage, large, broad and flat, deep green on top, under side cinnamon brown; very hairy leaves and stems; a grand specimen plant. One of the most attractive for exhibition. \$1 to \$3 each.

NEW SALVIAS.

Per plant.

- Splendens Bruantii. A dwarf-growing variety, producing fine large flowers of a velvety-red color; exceedingly attractive..... 0 50
- Splendens Hoveyi. This is a most desirable and handsome variety, of the habit and general character of *S. splendens*, but with dark blue flowers, 0 25
- Splendens, "Mrs. Stevens." Similar to splendens, except in color of flower, which is a deep crimson..... 0 30
- Nigrescens. Long flower spikes, gracefully decurved or drooping, of a blackish violet and lavender colored calyx..... 0 25
- Boliviensis Verticillata. Another beautiful Salvia which blooms freely during the winter and spring months, flower spikes, eight to ten inches long, of rich glossy scarlet flower tubes..... 0 25

NEW ABUTILONS.

- William Fowler, (new.) A pretty variety, with bright yellow flowers.... 0 30
- Snowstorm, (new.) Pure white of dwarf compact habit, an excellent variety..... 0 30
- President de Bellee, (new.) A very beautiful new Abutilon..... 0 50
- Toison d'Or, (new.) Color deep bright yellow; a very fine variety..... 0 50
- Sellowianum Marmoratum. The leaves of this beautiful variety are very large and ornamental; their color is a golden yellow, richly tessellated with green. It is an extremely attractive variegated foliage plant..... 0 25
- Darwinii. The flowers are orange scarlet veined with pink, opening like a parasol, making it distinct from any of the family..... 0 20
- Darwinii Tessellata. An exceedingly beautiful variegated variety of the last..... 0 20
- Auguste Pasewold. The foliage is large and thick set, beautifully blocked with green, yellow and a creamy white..... 0 20
- Roseum Superbum. Flowers of a rich rose color, veined with a delicate pink; flowering in great profusion..... 0 20

NEW AGERATUMS.

	Per plant.
John Douglas. A pretty dwarf compact habit, admirable for bedding, flowers large, color azure blue; a very fine variety.....	0 25
Blanche—"New White." This is a really white Ageratum, which will be useful for bedding out and winter flowering.....	0 25

NEW EULALIAS.

Japonica Zebrina. The variegation is this lovely grass in across the leaf instead of longitudinally. It grows from 4 to 5 feet in height, is a most strikingly graceful plant. Its flower spikes are equally beautiful and valuable as <i>E. Japonica</i>	50 cts. to 1 00
Japonica Variegata. Leaf long, variegated. The flower stems are from 3 to 4 feet high, very reed-like, and produce loose panicles of flowers; these panicles are hairy and erect until dried, when they become elegantly curled, closely resembling Ich-dien feathers.....	0 25

PAMPAS GRASSES.—*Gynerium Argenteum*.

	Per plant.
<i>Argenteum</i> . The well-known Pampas Grass, with long graceful foliage, which gives forth in autumn its beautiful silvery plumes.....	0 25
* <i>Argenteum Album Variegata</i> . White variegated Pampas Grass. This beautiful grass has all the grace and elegance of <i>G. Argenteum</i> , and flowering quite as freely; add to this its graceful foliage striped with silvery white.....	50 cts to 1 00
* <i>Argenteum Aurea Variegata</i> . Gold variegated Pampas Grass. Another beautiful variety, similar in its graceful habit to the last, but in this the foliage is striped with a deep yellow; a charming variety. .50 to	1 00
* <i>Argenteum Carmineum Rendatleri</i> . This new <i>Gynerium</i> is a really majestic and very beautiful plant. The panicles, measuring more than 2 feet in length, are of a bright carmine rose color; if kept dry in winter, they gradually assume a light violet tint. The habit of this new <i>Gynerium</i> is magnificent.....	1 00
* <i>Argenteum Elegans Niveo-vittatis</i> . Another very elegant Pampas Grass, handsomely variegated.....	1 00
* <i>Argenteum Roseum Variegata</i> . Foliage finely variegated with stripes of rose.....	1 00
* <i>Gynerium Jubatum</i> . This new variety of Pampas Grass from Chimborazo, is the earliest flowering of the family, and very free. This early flowering will make this fine variety intermediate between the <i>Arundo Conspicua</i> and the ordinary Pampas Grass	1 00

NEW VARIETIES OF HIBISCUS ROSA SINENSIS.

* <i>Collerii</i> , (new.) A remarkably distinct variety. The general habit of the plant correspond with those of the type, but the flowers are of a buff-yellow, with a crimson scarlet base, and are particularly handsome.....	1 00
<i>Cruentus</i> . The flowers are of a moderate size, compact and double, of a remarkably rich crimson red, and having a strikingly showy character.....	25 to 0 40
<i>Carminatus perfectus</i> . It has very large flowers, nearly 5 inches across, with broad and slightly undulated petals, of a rich soft carmine rose, with a deep crimson eye.....	25 to 0 40

	Per plant.
Fulgidus. The flowers are of a very large size, (5 inches in diameter,) composed of fine, broad, round and beautifully undulated petals, of an intense carmine scarlet.....	25 to 0 40
Miniata Semi-plena. Brilliant flowers of a vermilion-scarlet color, darker towards the base of the petals. The flowers are semi-double.....	25 to 0 40
Puniceus. The flowers are double, neat and compact, of a very elegant crisped appearance, color bright dense crimson.....	25 to 0 40
Lambertii. Flowers large, of a deep crimson, very fine.....	0 40
Van Houttii, (new.) Another magnificent flower, large, of a deep crimson, extra fine.....	0 40

NEW POINSETTIA.

Pulcherrima Plenissima, (new Double Poinsettia.) This magnificent plant is remarkable for its floral bracts, the size of the heads in which they are produced, and their marvellous brilliancy of color. Instead of the bracts being borne in a single head and spreading out as in the old form, in this new double kind, they are gathered into clusters, which fill up the centre, so that the whole inflorescence is full and rosette-like, and of a most vivid and brilliant scarlet color.....	50 to 1 00
Pulcherrima Major. The present variety is a great improvement on the old species, both in the size of the individual bracts, and also in the far larger heads, which are of a bright scarlet, tinted with violet cerise. It is also dwarfer in habit.....	30 to 0 50
Rosea-Carminata. This fine variety resembles the type form of <i>P. pulcherrima</i> , the difference consisting in the color of the fine spreading head of bracts, which are larger, smooth, and of a brilliant rosy carmine hue.....	30 to 0 50

DIEFFENBACHIA.

Brasiliensis. A handsome variety, the leaves averaging 18 inches in length, by 8 or 9 inches in width; the ground color of the leaf is deep green, and the whole surface is mottled with small blotches of greenish yellow and white. A beautiful plant.....	30 to 0 75
Bausei. It is a stocky-growing broad-leaved variety, with yellowish green leaves, which are irregularly edged and blotched with dark green, and also spotted with white, the marking being particularly effective.....	30 to 0 75
Bowmanii. Very large bright green leaves, blotched and marked with golden green; a grand specimen plant.....	30 to 0 75
Weirii. It is of dwarf habit, the foliage of a bright green color, thickly blotched and spotted with pale yellow. This is one of the finest of the Dieffenbachias.....	30 to 0 75
Baraguiniana. A fine vigorous plant with white stems, leaves green, spotted and blotched with pure white.....	30 to 0 50
Picta. A very beautiful foliage plant, leaves a deep green mottled with white; beautiful	30 to 0 50

MARANTA.

Massangeana. A very distinct dwarf species. The variegation consists of three distinct colors. The mid-rib veins and middle portion of the leaf are silvery white, faintly tinged with bluish green, then a broad band of blackish hue, the whole being surrounded by a belt of bright green, margined with a thin line of a lighter shade.....	75 to 1 00
Illustris. A beautiful marked species, with leaves of a rich lustrous green, being a rival to <i>M. Lindennii</i> and <i>M. Veitchii</i> , assuming the	

	Per plant.
habit of <i>M. rosea picta</i> whilst young. Towards maturity the tracery changes to a broader white one within the margin75 to	1 00
Regalis. Very beautiful, with fine foliage distinctly and finely marked... 0 50	0 50
Chimboracensis. Leaves bright green with a dark feathering, edged with white..... 0 30	0 30
Lindenii. Foliage very dark, with a golden feather along its centre. A fine species.....30 to	0 50
Makoyana. A very ornamental dwarf growing species; leaf-stalks slender reddish purple, blade of the leaf ovate, ground color olive green, beautifully and regularly blotched with creamy yellow, of a transparent character; on each side the mid rib are oblong dark green blotches, whilst the under side is rosy-red.....30 to	0 50
Tubispatha. An elegant and very attractive species of erect habit of growth; leaves some 9 or 10 inches long, light green, ornamented on each side the mid-rib with oblong blotches of cinnamon brown...30 to	0 50
Veitchii. The leaves of this grand plant are upwards of twelve inches in length; "the under surface of a rich purplish wine color, the upper of a deep shining green, blotched with conspicuous patches along each side, of a yellowish green, almost verging on grey. The contrast is very marked, and the whole plant very beautiful.....75 to	1 00
Porteanna. This is a vigorous growing species, with fine large foliage feathered with white..... 0 30	0 30
Van Den Hecke. Leaves dark satin-like embellished by a large central line, surrounded by a silver disc..... 0 30	0 30
Bicolor. Deep green marked with dark brown..... 0 30	0 30
Princeps. This plant attains a height of from three to four feet, the blade of each leaf measuring upwards of a foot in length; centre dark metallic green, margined with light green..... 0 50	0 50

Macrocarphylla, (<i>Atrocarpus imperialis</i> .) A robust vigorous grower with immense foliage.....	1 00
Parcelii. A splendid decorative plant with beautifully variegated foliage. The leaves, which are of large size, thin texture and coarsely serrated on the margins, are of a bright green color, profusely but irregularly blotched with creamy white and dark green.....	0 50
Australis. Foliage, a pretty ornamental plant.....	0 30
Lucida. Leaves bright green, shining.....	0 30

PHORMIUM.—New Zealand Flax.

- *Atropurpuream. A very desirable species; habit the same as *P. tenax*; leaves reddish purple. This makes a distinct decorative plant for the conservatory, and a fine subject for the sub-tropical garden. A distinct and beautiful plant.....
- *Colensoi Variegatum. This beautiful plant has fine broad erect pointed dark green leaves, elegantly banded at the margin with one or sometimes two conspicuous stripes of creamy white. It has the same mode of growth as *P. tenax*, but is altogether distinct, while its more erect habit gives it quite a distinct appearance.....\$1 to 3 00
- *Cooki Variegatum. An elegant, somewhat dwarf-growing plant; leaves green, beautifully striped with golden yellow. Native of New Zealand. Price on application.
- *Veitchii Variegatum. This is a finely variegated form of the well-known New Zealand Flax. The leaves are of the same size as the species, with conspicuous broad stripes of creamy white running out their whole length, and contrasting well with the light shining green ground color. It is a truly noble plant.....\$1 to 3 00

YUCCA.

- Aloefolia Variegata. We received a special premium for a fine specimen of this plant from the Maryland Horticultural Society. Leaves green, broadly striped and banded with yellow; a beautiful variegated plant.....75 cts. to 1 50
- *Quadricolor. The foliage of this is long, recurved and beautifully variegated. A very fine plant..... 1 50

DIPLADENIA, (*Echites*.)

- Amœna. Flowers of a soft pink color, suffused with rose, somewhat resembling *D. Splendens*, but in every respect a great improvement on that variety, being of superior form, the lobes being stiff and round, instead of reflex and pointed. For summer blooming in the greenhouse, no climber is more lovely than this..... 0 50
- Urophylla. A pretty species, flowers yellow..... 0 50
- *Boliviensis. A very free-flowering white Dipladenia. In habit it is very compact, producing an abundance of flowers in a much smaller state than almost any other species. The foliage is medium in size, and of a light glossy green color. The flowers *pure white*, with a distinct yellow centre..... 1 00
- *Hybrida. A very floriferous variety; flowers resembling *D. insignis* both in color and form, but are produced in much greater profusion.. 1 00

CYCLAMENS.

- Persicum. These have been raised from the finest strain and embrace many new and beautiful varieties. As a winter blooming plant it is invaluable.....25 to 0 50
- Giganteum. A very large and fine variety of Persicum..... 0 50

JASMINUM.

*Candida. A very beautiful and rare species, flowers pure white.....	1 50

CRASSULA.

Lactea. A very beautiful winter flowering plant of easy culture, flowers freely, color pure white. For cultivating in windows few plants succeed as well as this. It is one of the very best plants for this purpose	0 25
Cordata. Another fine species for winter blooming; color pure white, of free growth, and profuse flowerer.....	0 25

ANTHERICUM VARIEGATUM.

A most striking novelty. The foliage is of a bright grassy green, beautifully striped and margined with creamy white.....	0 30
---	------

ANTIGONON LEPTOTUS.

A beautiful plant of climbing habit, with numerous racemes of rose-colored flowers, showing a still richer tint in the centre. The profusion of its bloom is such as to give the resemblance of Roses at a distance, hence one of the Mexican names is " <i>Rosa de Montana</i> ," or Mountain Rose. Described by its discoverer as the most beautiful climber he had ever beheld.....	0 50
--	------

ACALYPHA MACAFEEANA.

"The leaves are sub-cordate and serrate, eight inches long and six broad, frequently cut into many forms, and very highly colored bright red, blotched with deep bronzy crimson." It is the best Acalypha yet offered, and will prove a superb summer bedding plant.....	0 50
--	------

ARUNDO DONAX VARIEGATA.

This is the most stately and graceful of all known variegated grasses of the garden. It forms a robust plant of majestic habit, with long, broad, elegant leaves, 1½ to 3 feet in length, marked with broad silver stripes or margins their whole length.....	25 cts. to 0 50
---	-----------------

AMORPHOPHALLUS RIVIERI.

This very curious Aroidæ planted in the open ground, in April-May (like the Dahlias) the tubers will produce on a thick stem, a very extraordinary looking palmated single leaf, in the shape of a reversed umbrella.....	0 25
---	------

CANTUA CORYMBIFLORA.

The flowers, which are borne in terminal corymbose trusses, are trumpet shaped, and pure white. In its color it is unique in the group, a desirable acquisition.....	0 30
--	------

DAHLIA MAXIMILIAN.

Per plant.

- A very large growing species from Mexico. Flowers during winter in a warm greenhouse. Flowers semi-double, purplish lilac..... 0 75

IMATOPHYLLUM MINIATUM.

- A very excellent evergreen, warm greenhouse or cool stove plant, intermediate between *Clivia* and *Vallota* or *Amaryllis* in style of growth, with dark green leaves and large corymbs of erect, large, clear rich salmon or light flame colored cup-like blossoms..... 0 75

LASIANDRA MACRANTHA FLORIBUNDA.

- A magnificent plant of good habit and a most profuse bloomer; the flowers are rich violet blue, between five and six inches in diameter and produced nearly all the year through. It requires the same treatment as *Pteroma Elegans*, but it is superior to that plant both in habit and size of its flowers..... 0 50

MANETTIA CORDATA.

- A climbing plant, which succeeds admirably bedded out during summer. The flowers are orange scarlet and given in the greatest profusion..... 0 25

PANAX FRUTICOSUM.

- A plant closely allied to *Aralia*, with beautiful fern-like foliage; a fine decorative plant..... 0 75

STEPHANOTHUS FLORIBUNDA.

- This plant is not new, but as a valuable stove climber it is unequalled. The flowers are pure white, of a waxy texture, very persistent. Some large plants in one of my greenhouses were covered with bloom the whole of the past spring and summer. Florists should grow it extensively.....50 cts. to 1 00

TABERNÆMONTANA CAMELLIFLORA PLENO.—*Glorie of the Day.*

- This plant is not new, but it is not cultivated to the extent it deserves: it succeeds well bedded out during summer, giving its lovely double fragrant flowers of the purest white in great profusion, excellent for bouquets, &c..... 0 30

BEGONIA WASHINGTONIANA.

- A very fine winter blooming variety, flowers pure white. 50 cts. each.

CLITTORIA CERULEA.

- A climbing plant of moderate growth, which flowers freely during winter, flowers in clusters of deep mazarine blue, pear-shaped flowers. 50 cts. each.

COCULUS CAROLINIANUS.

- A rapid growing climber perfectly hardy. It produces racemes of vivid scarlet berries which hang on the vines all winter. 50 cts. each.

COPROSMA BAUERIANA PICTURATA.

Per plant.

- A free-growing plant. The leaves are ovate and bluntly rounded, and they have a smooth surface of pale green, marked with blotches of pale yellow and creamy-white, spreading out from the mid-rib on one or both sides, and assuming a variety of grotesque forms..... 0 50

CURCULIGO RECURVATA.

- A remarkably graceful Palm-like plant, suitable for decorative purposes..... 25 cts. to 1 00

EUPATORIUM TRISTE.—(*Hebechinum Macrophyllum*.)

- Flowers pure white, blooming in January and February. A very useful plant for Florist..... 0 25

RHODOCHITON VOLUBILÉ.

- An old, but scarce summer climber; flowers profusely of a blackish purple, a very desirable plant..... 0 50

IRISINE.—(*Achyranthes*.)

- Brilliantissima, (new.) Stems and foliage exceedingly brilliant; a most desirable new bedding plant..... 0 50
Wallisii, (new.) Another distinct and valuable variety. Both very useful for ribbon gardening..... 0 25

ALOCACIA.

- Alba Violacea. Stems blue, striped white, large foliage..... 0 25
Marshalli. The leaves are a bright green, marked between the principal veins with broad wedge-shaped blotches of blackish purple..... 0 25
Jenningsii. A delicate green, heavy blotches of black, which are remarkably precise in outline and arrangement..... 0 25
Bataviensis. Foliage and stems dark purple..... 25 cts. to 0 50
Auriculata 0 25
Javonica. Beautiful green..... 0 30

NEW AND SCARCE CANNAS.

- Creole, (new.) Very dark foliage, grows about 6 feet high; a fine variety, 0 50
Glorie de Provence. Foliage large, fine plant, flowers canary yellow, dwarf 0 25
Bannetti Excelsa. Foliage large shaded purple, flowers orange red..... 0 25
Ornement du Grand Rond, (new.) Very tall variety, with large bronzy-green foliage, large scarlet flowers..... 0 25
Premices de Niece. Medium height, fine green leaves, golden yellow flowers..... 0 25
V. Lemoine. Fine broad green foliage, flowers orange scarlet..... 0 25
Henri Vilmorin. Large dark green leaves, brilliant orange blossoms; leaves stand well in exposed situations. This is a very fine plant..... 0 25
Marechal Vaillant. Large orange flowers, a fine, vigorous grower, with large leaves of a dark bronze-crimson..... 0 25
Musefolia Sanguinea. Highly ornamental variety, having broad and stately Muse-like leaves, prominently ribbed or nerved, and of a rich bronze or chocolate and crimson tint..... 0 25
Oriflamme. Leaves large lanceolate-green, with violet veins, a vigorous showy plant, with salmon orange flowers..... 0 25
My selection, 15 to 25 cents each, \$1.25 to \$2 per dozen.

NEW TUBEROUS-ROOTED BEGONIAS.—Single Flowered.

The following novel and beautiful varieties will be found admirably adapted for the summer and autumn decoration of the greenhouse and conservatory; for they produce in the utmost profusion magnificent flowers of very large size, and great variety in color. They do not require stove cultivation, but will succeed well in a greenhouse. The tubers rest during the winter months, similar to Gloxinias, and can be easily re-started into growth in the spring. Their profuse flowering quality, and the charming variety of color of their blossoms, render them extremely showy and effective:

Per plant.

*Davisii. This is the most important acquisition that has been made in the tuberous-rooted section of the Begonias since the introduction of <i>B. Veitchii</i> . It is a native of the Andes of Peru. It is of the dwarfest habit, the leaves and flowers all springing from the root stock. The scapes, which rise erect above an elegant bluish green foliage, are bright red; each scape bears three dazzling scarlet flowers. The plant is of very free growth, and a profuse bloomer. "Although one of the smallest of all Begonias, this well deserves culture as one of the best of them."— <i>The Garden</i> . (Ready in May.).....	2 00

<i>Hendersonii</i> . Delicate waxy flesh color, a sport from <i>Hogarth</i>	0 25
<i>Elegans</i> . Color a scarlet carmine, flowers and trusses of immense size, larger than any other variety.....	0 25
<i>Laura</i> . Bright pink.....	0 25
<i>Jasminoides</i> . A beautiful species in the way of <i>B. Longiflora</i> . It is a more ready blooming plant, with larger terminal and auxiliary racemes of equally fragrant snow white flower tubes.....	0 25
<i>Davidsonii</i> or <i>Vreelandii</i> . The finest of all white <i>Bouvardias</i> , and of the free growth of its parent <i>Hogarth</i>	0 25

DRACÆNA.—Dragon Tree.

Our rich collection of *Dracænas* has been awarded the first premium by the Maryland Horticultural Society for several years, and first premium at the "Cincinnati Exposition" in September last. For decorative purposes these plants are now extensively grown, their broad dark tropical foliage and graceful habit render them very appropriate.

	Per plant.
* <i>Princess Margaret</i> . A very fine variety of bold habit and free growth, remarkably distinct in the color and markings of its foliage. The	

Per plant.

- leaves with their foot-stalks are about 18 inches in length. When first expanded they are creamy white, slightly shaded with green of a tint quite unlike any other *Dracæna* in cultivation, with a few oblique stripes of deep green, with a pale crimson mid-rib. The light-colored portions of the leaf become suffused with delicate rose. It colors well from its youngest state, even when in the smallest pots, so that it will prove a most valuable decorative plant in every stage of its growth.....\$3 00
- **Dracæna Frederici*. It has a compact yet graceful habit of vigorous growth. Its leaves assume a rich rosy crimson color, and is a grand decorative plant. One of the most valuable, as it colors beautifully in a small state..... 3 00
- **Macarthuri*. Of very dwarf compact growth and bright colored foliage. The leaves, including their petioles, scarcely reach a foot in length, with a breadth of three inches; they are very elegant both in form and coloring, the latter being especially brilliant and attractive, rendering this variety one of the most distinct in cultivation. In many leaves almost the entire upper surface is colored with a vivid rosy carmine, interrupted by a few lines of deep olive green; in others the bright coloring is confined to the margins..... 2 00
- **Roseo-picta*. A plant of robust habit and bold aspect. The leaves are sub-erect or slightly spreading, from 18 to 20 inches long including the foot stalk, with a width of four inches.. They are beautifully colored with a delicate rose tint which deepens by age to a bright carmine, finely contrasting with the ground color which is a deep olive green..... 2 00
- **Terminalis Alba*. This is a most important acquisition, having quite the habit and character of the well-known favorite *D. terminalis*, but with white variegation. The ground color bright green, with bold pure white variegation, the upper leaves being white, with here and there a bar or band of green, in some cases large sectional patches are colored white, while leaf-stalks are also edged with white, colors very early 2 50
- **Bausei*. Of grand and free-growing habit, highly colored, and most effective, raised between *D. Chelsoni* and *regina*. Leaves recurved, about 4 inches wide, dark bronze, the margin crimson. narrow in the lower leaves, becoming broader and more developed on the upper ones, the youngest and uppermost being broadly and brilliantly edged with deep rose, and the margins of the leaf-stalks also richly colored..... 2 50
- **Taylori*. Of very stout habit, a hybrid between *D. magnifica* and *Mooreana*, dwarf and dense. Leaves very broad ovate-oblong, erect, with reddish stalks, having something the aspect of those of *D. Fraseri*.... 1 50
- **Wisemannii*. A handsome stove shrub, with the leaves of a bronzy hue, red at the margins, and breaking out into white in the younger growth 1 00
- **Robinsoniana*, (new.) A robust growing variety, having leaves from 15 to 18 inches long, and from 3 to 3½ inches broad; the ground color is a light olive green, very much striped with bands of bronzy crimson and greenish white, more broadly in some leaves than in others; the petioles are margined with crimson. The coloring is unlike that of any other *Dracæna*, and marks the plant as a distinct variety..... 1 50
- **Elegantissima*, (new.) A dark colored variety, with narrow undulated leaves of dense habit. The leaves are of a deep bronze, with a metallic lustre, and very distinctly margined with bright crimson; in the young leaves crimson of a lighter shade entirely predominates, the bright coloring giving the plant a glowing and attractive aspect. It is one of the best of the narrow-leaved *Dracænas*..... 1 50
- **Speciosa*, (new.) The leaves are broadly striped or margined with a yellowish creamy white, stained and edged with light rosy pink; the ground color is a rather light but pleasing olive green; it is therefore a tri-colored plant, distinct and attractive.....75 to 1 50

Per plant.

- ***Hybrida**, (new.) The older leaves are of a deep green color, margined with bright rose; as the plant attains age, the latter formed leaves become entirely suffused with deep rose and creamy white, the foot-stalks being also of deep rose. The variegation shows itself whilst the plant is quite young.....50 to 1 50
- ***Mooreana**, (new.) It is a noble plant, the leaves being fully 4 inches in width, 2 to 3 feet in length, and beautifully undulated. The habit is compact, and especially suitable for decorative purposes. The base of the leaf-stalk and the mid-rib are of a bright reddish crimson color, which, in the leaf itself, changes to a glossy bronze.....75 to 1 50
- ***Amabilis**. This is a magnificent variety. The ground color of the leaf is bright glossy green, becoming beautifully marked and suffused with pink and creamy white, the young leaves being occasionally of quite a rosy color.....50 to 1 00
- ***Baptistii**. The leaves are green, 1 to 1½ foot long, 4 inches broad, margined and irregularly and obliquely striped with narrowish creamy white flakes, passing through pale pink to deep rose. The older leaves frequently become flushed with rose.....50 to 1 00
- ***Excelsa**. Large leaves, of an erect arching habit, and of a deep bronzy hue, margined with deep magenta crimson. This bright color is continued throughout the edge of the leaf, breaks out into streaks and patches.....50 to 1 00
- ***Fraseri**. The leaves, a foot or upwards in length, and as much as five inches broad, are margined with bright rosy lake. The principal part of the leaf is of a blackish purple, with a glaucous bloom, a marginal stripe of deep magenta runs down into the edge of the petiole, while here and there besides may be seen a streak of the same rich rose color.....50 to 1 00
- ***Grandis**. The leaf is a foot long and 4½ inches broad, with striated surface, which is of a shaded deep green, broadly edged near the base with bluish white, the extreme margin being of a deep magenta rose, which becomes more or less suffused over the pallid portions.....50 to 1 00
- ***Guilfoylei**. A most superb species, with long pendant lanceolate acuminate leaves; the ground color is bright green; fully one-half the leaf, however, is striped with white and bright rosy red, the latter color mostly forming the border in addition.....50 to 1 00
- ***Hendersoni**. One of the very finest forms, being distinct not only in its elegant and graceful habit, but in the leaves being uniquely and beautifully variegated with white, rosy-pink stripes upon a light green ground.....75 to 1 00
- ***Magnifica**. This is a very handsome plant; leaves nearly two feet in length and eight inches in breadth, when the plant is well grown. The foot-stalks are reddish purple, and the leaves are rich bronzy brown suffused with pink, becoming darker with age.....50 to 1 00
- ***Metallica**. This is the finest of all the dark colored *Dracænas*, the leaves being as much as 16 inches long. These, together with the sheathing leaf-stalks, are of a uniform rich coppery purplish hue when young, becoming a dark purplish bronze when mature.....1 00
- Nigro-Rubra**. A robust growing and exceedingly beautiful plant, leaves upwards of eighteen inches in length, ground color rich brown, the centre crimson, shaded with rose; it is a most desirable variety.....50 to 1 00
- Regina**. This is a plant producing very large and broad leaves, the ground color is bright green, but fully one-half the leaf is variegated with creamy white, which produces a rich and most beautiful effect.....50 to 1 00
- Shepherdii**. This plant takes on its distinctive coloring gradually on the older leaves, the young ones being green, and showing paler green stripes on those parts which take on at a later period the peculiar bronzy orange hue. It is very free growing, of ample proportions, the broad oblong linear leaves 2½ feet long and 5 inches broad, tinted at the edge with the same bronzy orange color.....50 to 1 00
- Splendens**. Of dwarf and compact but free growing habit, densely furnished with short recurved leaves, about nine inches long and four

Per plant.

inches broad. The color is a deep bronzy green, breaking out in the young growth into bright rosy carmine. The brighter coloring appears sometimes in stripes, and sometimes occupies the whole surface.....	50 to 1 00
Imperialis. The variegation is in this case of a clear white combined with deep rose, and is most effective. The leaf-stalks are about 4 inches long, and marginate. The color is a deep sap green, breaking out freely in the young leaves into white.....	50 to 1 00
*Macleayi. Leaves are some 18 inches long and about 4 inches wide, of a rich dark metallic bronze. It is very distinct in habit and color, and one of the most beautiful.....	50 to 1 00
*Porphyrophylla. A noble stove shrub, of erect habit, with bold broadly oblong leaves of a fine deep bronzy green color, having a glaucous bloom on the under surface.....	30 to 0 75
Braziliensis. A robust growing species with large, broad green foliage....	0 50
Cooperii. Foliage gracefully recurved, rich crimson.....	25 to 0 50

Australis. A very long, narrow, graceful foliage.....	25 to \$0 50
Indivisa. Long, narrow, graceful foliage.....	25 to 0 50

Australian plants of much grace and beauty, admirable for vases, single specimens on lawns, &c.

CROTON.—(Codicæum.)

These very ornamental plants are natives of the South Sea Islands; they are among the most beautiful of variegated plants, the leaves being blotched with yellow and red in various ways, which renders them most attractive and valuable for decorative purposes. They are of the easiest culture, succeeding in any warm greenhouse.

Our rich collection of Crotons has been awarded the leading prizes by the Maryland Horticultural Society for some years, and first premium at the Cincinnati Exposition in September last.

Per plant.

Aucubæfolium. Leaves large dark green, blotched with golden yellow.....	25 to 0 50
Augustifolium. Leaves very long green, blotched with red and yellow.....	25 to 0 50
Hillianum. Dark green, blotched and splashed with red and yellow.....	25 to 0 50
Cascarilla. Leaves long, twisted and crimped, blotched with golden yellow.....	25 to 0 50
Interruptum. Very long leaves, nearly an inch broad, mid-rib bright scarlet, shading to a golden yellow; an exceedingly graceful plant.....	25 to 0 50
Longifolium. Leaves green, blotched and striped with golden yellow, very long and graceful; a magnificent plant.....	25 to 0 50
Picta. Foliage dark green, spotted with red and yellow.....	25 to 0 50

	Per plant.
Variegatum. Leaves dark green, blotched and spotted with golden yellow.....	25 to 0 50
Variegatum Elegans. Leaves dark green, striped with gold, mid-rib golden yellow.....	25 to 0 50
Variegatum Rubrum. Leaves dark green, striped and spotted with red and golden yellow.....	25 to 0 50
Johannis. The leaves are from twenty to twenty-four inches long, narrow and pendulous, ground color bright shining green, the margins and mid-rib bright orange yellow, a beautiful variety.....	50 to 1 00
Irregulare. Leaves broadest at the base, and tapering to an obtuse point, about 9 inches long, and most diversified in shape, scarcely two leaves resembling each other; ground color dark green, mid-rib orange yellow, with the upper surface of the leaf irregularly spotted and blotched with yellow.....	50 to 1 00
Lord Cairns. This has trilobate leaves, the middle lobe being considerably elongated and with a broader expansion towards the point; the lateral lobes are unequally developed in the different leaves. The color of the foliage is a bright green, the mid-ribs of the leaves a light yellow, blotched and spotted with the same color, the spots and blotches being irregularly scattered over the surface.....	50 to 1 00
Majesticum. A truly grand variety, leaves from twelve to eighteen inches long, somewhat narrow; when young the leaves are deep green, ribbed with golden yellow, the green changing with age into a deep olive and the yellow becomes crimson.....	50 to 1 00
Multicolor. Leaves irregular in shape, contracted in the centre and twisted at the point, light green blotched with yellow, but changing to glossy green blotched with yellow, reddish-yellow, and red, the mid-rib crimson.....	50 to 1 00
Spirale. The spiral leaves render it most distinct, they are from 9 to 12 inches in length, and about an inch wide and pendulous; in a young state the ground color is deep green, striped up the centre with a broad band of golden yellow; with age they change to a deep bronzy green, and the mid-rib becomes a deep crimson.....	50 to 1 00
Tortilis. A remarkably fine variety with twisted foliage, very distinct. The mid-rib of each leaf grows in a spiral from the base to the point. The ground color is of a deep olive green, the mid ribs of the mature leaves bright crimson, bordered on each side with a line of deep yellow.....	40 to 1 00
Volutum. A very distinct form, the leaves being rolled up from the end in a volute, after the manner of the curving of a ram's horn. The ground color is deep green, a golden bar runs down the centre, from which yellow veins diverge at about half-inch intervals, and meet near to, and so as to coalesce with, the golden margin, in which occur scattered spots.....	50 to 1 00
Veitchii. A splendid variety. The leaves attain a length of twelve to fourteen inches, and two-and-a-half inches in breadth, and are traversed by broad bands of creamy yellow, which change with age into rose and carmine purple.....	50 to 1 00
Undulatum. This is one of the most beautiful, the edges of the leaves being beautifully undulated and wavy, and the variegation consisting of numerous markings and blotches, which in the matured leaves are of the brightest crimson on a dark green ground, and in the young leaves, at first yellow, gradually changing to pink and crimson.....	50 to 1 00
Weismanni. This is one of the most beautiful of all the forms; leaves about a foot long and three-fourths of an inch wide; ground color shining bright green, striped and mottled with golden yellow.....	50 to 1 00
Chrysophyllum. At the upper ends of the shoots they appear to be almost entirely golden. The upper leaves are shorter than the lower, somewhat wavy-edged, and occasionally about once twisted; the petioles are red, and the bark of the young wood yellow. The peculiar style of coloring, which might also be called golden-crowned.....	50 to 1 00
Cornutum. This is a curious and handsome variety; leaves irregular in	

Per plant.

shape, dark green, blotched and spotted with yellow, and having a horn-like extension of the mid-rib, which has given rise to its name	50 to 1 00
Youngii. This magnificent Croton is of noble and graceful habit; the leaves are of great substance, from 1½ to 2 feet in length, deep red underneath, while the upper surface is dark green, densely blotched and suffused with creamy-yellow, and bright rosy-red.....	50 to 1 00

Specimen and half specimen plants of all can be supplied during summer and autumn, suitable for exhibiting, at moderate prices.

<i>Indica Rosea</i> . Rose or pink, the variety generally grown.....	0 25
<i>Indica Purpurea</i> . A bright purple, a vigorous grower and free bloomer..	0 25
<i>Indica Magenta</i> . Color a bright magenta.....	0 25
<i>Indica New Crimson</i> . Bright deep crimson, no variety hitherto introduced approaching it in color; a profuse bloomer, giving immense heads of its rich flowers.....	0 25

The Crape Myrtle is well-known in this latitude and South as our most beautiful summer flowering hardy shrub. North, it will need protection.

PUNICA.—Pomegranate.

	Per plant.
<i>Nana</i> . It blooms freely in a small state, and larger specimens are sheets of bloom. It is highly recommended for bedding purposes, being a profuse bloomer, and exceedingly desirable from its rich color, brilliant orange scarlet.....	\$0 25
<i>Alba Pleno</i> . Double white.....	0 25
<i>Rubra Pleno</i> . Double red.....	0 25
<i>Rubra Prolifera</i> . A profuse flowerer.....	0 25
<i>Legrelliæ Pleno</i> , (new.) Reddish yellow bordered with white, very double, splendid.....	0 30

PASSIFLORA—Passion Flower.

<i>Alba</i> . White Passion flower, greenhouse climber	0 50
<i>Cardinalis</i> . Scarlet flowers, greenhouse climber.....	0 50
<i>Princeps</i> . Flowers rich crimson, a very fine greenhouse climber.....	0 50
<i>Quadrangularis Variegata</i> . Very fine golden variegated foliage.....	0 50
<i>Trifasciata</i> . Leaves dark green, tri-lobed, each lobe having a broad central band of rose, a very distinct Passion flower, flowers white.....	0 25
<i>Cœrulea</i> . Cœrulean blue, a beautiful old variety, nearly hardy, requires only slight protection in severe weather.....	0 25
<i>Incarnata</i> . This variety is perfectly hardy in this latitude. In very severe winters it is killed to the ground, but on the return of spring, it puts out with great vigor, growing luxuriantly, and flowering profusely during the summer months; similar in color to <i>Cœrulea</i>	0 25

TACSONIA—A Section of Passiflora.

<i>Exoniensis</i> . Color a glowing scarlet; a rich and very beautiful Passion flower.....	0 50
<i>Van Volxemi</i> . A splendid conservatory climber, with large scarlet crimson blossoms; it may be regarded as a scarlet greenhouse Passion flower, an exceedingly beautiful climbing plant.....	0 40
<i>Buchananii</i> , (<i>Vitifolia</i> .) Another magnificent conservatory climber, with brilliant orange scarlet flowers, most profuse bloomer, and one of the finest Passion flowers.....	0 40

NEW and RARE HARDY TREES and SHRUBS.**CEDRELA SINENSIS.**

Per plant.

A very beautiful hardy tree of rapid growth, from north of China, with large foliage similar to *Ailanthus*, and yellowish bark. This is a very handsome new tree, very desirable for gardens, lawns, cemeteries, &c., its fine large shining foliage being most distinct, and the tree, withal, perfectly hardy..... 0 75

CALLICARPA PURPUREA.—(*Gracilis*.)

A pretty berry-bearing shrub. It blooms in August; these are succeeded by a crop of small berries, which are of a bright lilac-purple, and which continues up to winter. The plant is quite hardy. The shoots are generally killed to the ground, but they throw up rapidly in spring..... 0 40

HYPERICUM PATULUM.

“This magnificent hardy evergreen flowering shrub is a grand acquisition to our scanty list of hardy flowering species. Its individual flowers, which are produced in bunches, are pale yellow, and of great substance, resembling much in appearance the beautiful *Gardenia Javonica*. It continues long in perfection, commencing to flower in June, and has been in fine perfection till the first week in November.”—*M. Carriere*..... 0 30

IDESIA POLYCARPA.

A very beautiful new Japanese tree, with a handsome spreading head and fine foliage 6 inches broad and of a bright green. The flowers, which are of a yellowish green, spring from the axils of the upper leaves in long gracefully drooping branched racemes. They are deliciously fragrant, their odor resembling that of a *Vanda*. These are followed by numerous orange berries, about as large as a small cherry. Tree quite hardy..... 50 to 0 75

PYRUS MAULEI.

This desirable new fruit has been introduced into England from Japan; it is allied to the Japan Quince. The fruit is the size of a moderate Quince, of a bright apricot color, and makes a rich conserve. The flowers, which are produced in great profusion, are of a most brilliant orange scarlet color. It is one of the most beautiful flowering trees of recent introduction, as well as a valuable fruit. Small plants, 0 50

***STAPHYLEA COLCHICA.—(*Bladder Nut*.)**

An exceedingly beautiful hardy shrub, flowers profusely early in large white clusters. Will force as freely as *Deutzia gracilis*. Florists should grow it largely. \$1.00 each.

***PHELLODENDRON AMURENSIS.**

A pretty medium-sized tree from the Amour, with a straight stem and dense head and long pinnated foliage; produces the Siberian Cork. “This is just now (November) a beautiful object in my garden. My specimen

tree is about 12 feet in height, and has a tall pyramidal crown of from 3 to 6 feet. The form of its foliage, which is deeply lobed, gives it a singular appearance, and the coloration of the leaves, which are bright red, is very fine. It retains its foliage very late."—*Max Leichtlin*. 9 to 12 inches. \$1.00 each.

RHODOTYPES KERRIOIDES.

Per plant.

This handsome shrub is from Japan. It is one of the earliest to bloom, coming out the first fine days in February. The flowers with which the plant is clothed are pure white and very showy, a great acquisition among shrubs, quite hardy.....30 to 0 75

*STAUNTONIA HEXAPHYLLA.

A beautiful new climbing plant from Japan, perfectly hardy, of very rapid growth and fine large foliage..... 1 00

STYRAX JAPONICA.

This is one of the finest hardy shrubs of recent introduction. It is of vigorous compact growth; blooms early and most profusely; the plants are sheets of bloom, which are pure white and most charming, admirably adapted for cemeteries, &c.....30 cts. to 0 50

LIGUSTRUM JAPONICUM TRICOLOR.

A very fine variegated shrub, centre of leaf green, broadly margined with silver..... 0 50

CRATÆGUS LALÆNDI.

A variety of *Pyracantha*, much superior, has deeper colored berries and a more compact and better habit..... 0 40

DIMORPHANTHUS MANDCHURICUS.

This noble deciduous shrub has been introduced from Mandchuria, and, therefore, is perfectly hardy. Its handsome multifid leaves are about a yard in length, and as much in breadth, the mere mention of which conveys some idea of the grand effect this plant produces.. 0 50

DESMODIUMS.

Japonicum. A pretty dwarf Japanese shrub, which is quite hardy. "Its drooping branches are entirely hidden by millions of its white flowers, which are freely produced from August to beginning of winter."..... 0 25
 Penduliflorum. Similar to the last, with purple flowers..... 0 25
 Dilleni. Blooms during summer..... 0 25

ABELIA RUPESTRIS.

A dwarf compact shrub, flowers pure white in long racemes during summer and fall; a beautiful shrub, quite hardy..... 0 25

NEW WIEGELIAS.

Incarnata, (new.) A beautiful bright colored variety.....	0 40
John Standish, (new.) Large flowers of purplish crimson.....	0 40
Looymansii Aurea. A fine new variety; leaves golden yellow, margined with a slender edging of fine carmine. Magnificent bouquets of Rose flowers.....	0 50
Ed. André. A very beautiful new variety, interior of flower purple, exterior very dark blackish purple.....	0 50

LONICERA PLANTIERENSIS.

This beautiful new Honeysuckle has very large flowers of a deep vermilion, with orange centre, very fine.....	0 50
---	------

***JAPANESE PERSIMMON.—*Dyospyros Kaki*.**

Of this beautiful new fruit I offer several finest varieties.....	0 75
---	------

CLEMATIS.

Among the most beautiful of climbing plants are the Clematis—whether trained over lattice work, on pillars or trailing on the ground. There can now be found among them great variety of colors, all are profuse bloomers, and quite hardy.

Class I.

PERPETUALS, Summer and Autumn bloomers flowering on shoots of the same year's growth, raised between *Lanuginosa* and *Viticella*, except the two first named.

	Per plant.
Coccinea. A native Southern species, quite hardy, flowers small, bright scarlet; a very interesting plant	0 50
Flammula. Sweet scented, the flowers are small, pure white and fragrant.	0 25
Alexandra. Large flower, color reddish violet, blooms finely through the summer.....	0 50
Aureliana. Flowers large and of a lively porcelain blue.....	0 50
Atropurpurea. Large and intense crimson blue.....	0 30
Candidissima. Very large, pure white, fine.....	0 50
Fulgens. Violet purple, with a reddish band through the centre of each petal.....	0 40
Gem. A most profuse bloomer, continuing in full beauty late into the autumn, flowers large, a most intense rich blue.....	0 50
Henryi. A magnificent large white flower; a free grower and a most profuse bloomer.....	0 50
Jackmanii. A lovely hardy climber, with large flowers of a deep purple light violet; a profuse bloomer.....	0 50
Jean d'Arc. Flowers white, large and perfect, with three pale blue stripes on each petal. The plant is of vigorous habit.....	0 50
Lady Caroline Neville. Color delicate blush white, with a broad purplish lilac band in the centre of each petal.....	0 50
Lanuginosa. A beautiful species, with light azure flowers, which form an admirable contrast to the others.....	0 40
Lanuginosa Nivea. A variety of the last, with large white flowers, a very fine and distinct sort... ..	0 50
Lawsoniana. A large and very fine flower, of a fine rosy purple, a free and continuous bloomer.....	0 50

	Per plant.
Mrs. Jas. Bateman. A very large lavender blue.....	0 40
Mad. Grange. Flowers large purple violet with maroon mid-rib, redder than any other Clematis.....	0 75
Mad. Van Houtte. A splendid variety; white, suffused with a bluish or mauve colored tint.....	0 75
Marie Lefebvre. Flowers from six to seven inches in diameter, delicate violet white, with purplish lilac band in the centre of each petal.....	0 50
Magnifica. Purple, shaded with crimson, very large and fine.....	0 50
*Otto Frobel. This variety is remarkable for vigor and the flower is of immense size and perfect in form, the sepals being sufficiently broad to be well imbricated. The color French white. Any person planting this cannot possibly be disappointed.....	0 75
Princess of Wales. Large flowers of a deep rich violet purple, with red bars down the centre of each petal; a beautiful variety.....	0 50
Rubella. Flowers of a rich velvety claret, the deepest color of any Clematis, generally has six petals to each flower.....	0 50
Rubra Violacea. Shaded reddish violet flowers, which are of a rich velvety appearance.....	0 50
Symeiana. Delicate shade of pale mauve or lavender blue; a striking variety.....	0 75
Star of India. Flowers from four to five inches in diameter; color rich violet purple, with a rosy purple band in the centre of each petal.....	0 50
Thomas Tennant. White, with pale rose changing to ivory white, very handsome.....	0 75
Thomas Moore. Deep rich violet tinted puce, a very large flower, occasionally nine inches in diameter.....	0 50
Tunbridgensis. Flowers four to six inches in diameter, dark blue, and ribbed on the centre of each petal with purple.....	0 50
Velutina Purpurea. Very profuse bloomer, color blackish mulberry.....	0 50
Viticeila Venosa. A reddish purple, reticulated with white.....	0 50
Twelve very fine, my selection, \$4.50.	

NEW CLEMATIS.

*André Leroy. An immense flower of the finest form, color rich violet, with a metallic hue; a grand flower.....	1 50
Ascotiensis. The flowers containing six petals each; color a fine azure blue; it is a most profuse bloomer.....	0 50
*Fairy Queen. Flowers very large, occasionally measuring nine inches across; color pale flesh, with a pink bar in the centre of each sepal, shaded purple at the base....	1 00
*Duke of Edinburgh. This is a fine variety, flowers large, six-sepaled, of a rich violet purple. One of the most attractive.....	0 75
*Devoniensis. Flowers large, delicate azure blue, very free bloomer, extra.....	1 50
*Duchess of Teck. Flowers pure white, six-sepaled, with a faint, delicate mauve bar down the centre when first opened.....	1 00
*Duchess of Edinburgh. Without doubt the best of the double whites yet known, most deliciously scented, very free blooming.....	2 00
*Gipsy Queen. An extremely rich, bright, dark velvety purple variety of the Jackmanii type; very free, late flowering.....	1 00
*Jackmanii Superba. A large variety of the well-known Jackmanii, very fine.....	1 50
*Lord Derby. The flowers are eight-sepaled, of a pale lavender or bluish mauve; the sepals very much overlap, so that the flower is remarkable for its fullness.....	1 00
*Moritkata Oke. A beautiful new variety, satiny French white, closely set and slightly cupped, flowers very perfect in shape.....	2 00
*Mrs. Hope. Satiny mauve, bar rather darker tint, sepals broad and overlapping, forming a full slightly reflexed flower.....	2 00

	Per plant.
*Mrs. Baker. White, with dark carmine ribbon, a large and beautiful flower, free bloomer.....	0 75
*Mrs. Moore. The flowers are from eight to nine inches across. The sepals, six in number, are white, showing, in the young state, a slight mauve shade along the bar.....	0 75
*Neptune. Flower immense, color pale lilac, a lovely flower.....	1 00
*Purpurea Elegans. Flowers large, fine form; color deep violet purple, well contrasted by its light-colored filaments and pinkish brown anthers.....	1 00
*Reine Blanche. A lovely white flower, delicately margined, with sepals, fringed.....	1 00
*Vesta. The flowers are five inches across, and consisting of eight or more spreading sepals, of a dead white color, with a creamy tinge over the centre bar.....	1 00
*Victoria. A distinct and handsome variety, flowers large, composed of five and six petals well formed, color deep reddish mauve.....	0 50

Class II.

The following varieties flower in spring and early summer, from the old or ripened wood of the previous year's growth, have been raised from Patens:

	Per plant.
Albert Victor. A thick velvety texture, flowers large deep lavender, with brown ribs down the centre petal.....	\$0 40
Excelsior. Flowers of large size, finely shaped and occasionally double, the outer petals resembling the guard-petals of a Hollyhock, and well arranged Anemone centre; color rich deep mauve.....	0 75
Fair Rosamond. The flower is fully six inches across, and consists of eight sepals. White with a bluish cast, having a light wine red bar up the centre of each sepal. Flowers very fragrant, and are abundant through June and July.....	0 75
Fortunei. A very fine species from Japan, flowers double, white and fragrant.....	0 40
Florida Standishii. One of the most beautiful flowers, of a kind of violet blue, with crimson and carmine shining through it.....	0 40
John Gould Veitch. A magnificent "Double Blue Clematis." It is a profuse bloomer, the flowers being very double, of a large size, (four inches in diameter,) and of a beautiful light blue....	0 50
Lady Lonsborough. A robust constitution, producing its elegant flowers in great abundance; color a delicate silvery lavender with a white stripe down the centre of each petal.....	0 50
Lucie Lemoine. Fine double white, the flowers are composed of 75 to 90 petals. In the first period of its flowering the blooms are semi-circular in shape, resembling a gigantic double white Zinnia.....	0 50
Miss Bateman. A magnificent plant of both growth and flower; the blooms are large, of good shape and pure white, banded with creamy white down the centre of each petal.....	0 40
Montana. Flowers pure white early in spring.....	0 50
Stella. Very showy. The flowers are of a light violet or deep mauve, with a distinct bar in the centre of each sepal of a reddish plum color.	0 75

NEW CLEMATIS.

*Countess of Lovelace. This fine variety is remarkably vigorous. The flowers are most distinct, having large obovate lanceolate acuminate sepals of a bluish lilac, forming a guard to the flowers, like the guard-petals of a Hollyhock, within which is a rosette of smaller sepal-like bodies, which are of a deep bluish lilac to the base, forming a full double flower.....	1 50
---	------

	Per plant.
*Sir Garnet Wolseley. The flowers are very distinct and attractive, nearly six inches across, of a slaty-blue ground color, having in the young state a very effective dash of bronze, and in the matured condition a showy and distinct bar of plum red.....	1 00
The Queen. A free habit and remarkably handsome foliage, and flowers of a delicate lavender color; very beautiful.....	0 75
Maiden's Blush. Delicate blush white having a stronger tint of bright rosy lilac, beautiful new variety.....	0 50

GESNERIAS.

These are all bulbous-rooted plants which bloom magnificently during the winter months.

	Per plant.
*Donkelaari. A remarkably fine plant for winter blooming, color rich vermilion.....	\$1 00
*Leopoldi. Dwarf, compact, erect habit, umbels of a rich vermilion; an exceedingly beautiful plant.....	0 50
*Lilacina. A variety similar in all respects to the last, except color of flowers, which in this is of a clear lilac.....	0 50
Regalis. Large, splendid and elegantly-arranged foliage, flower trusses sparkling vermilion.....	0 75
Exoniensis. A magnificent winter flowering plant; the color of the flower is an intense orange scarlet, the leaf is of a dark velvety texture, studded with minute red hairs like plush.....	0 50
Refulgens. Another superb winter flowering plant; color of flower between vermilion and amaranth, a charming plant, producing magnificent flowers.....	0 50
Splendidissima. Color crimson, with yellow tube, spotted, very beautiful, velvet-like foliage, very fine.....	0 30
Jasminiflora. A tall growing species, flowers of the purest white, freely produced, beautiful.....	0 30

MISCELLANEOUS GESNERIACIOUS PLANTS.

Cyrtodeira Metallica. Leaves large, thick, of an olive hue, with red central band, feathering out from the mid-ribs; flowers bright scarlet....	0 30
Cyrtodeira Chontalensis. Leaves light green, purple underneath; flowers lilac with a yellow centre; a charming plant.....	0 30
Drymonia Turialvæ. A beautiful bold leaf, very thick, with a silvery metallic appearance, very free grower, and as easily cultivated as a Begonia. Also a good flowering plant.....	0 30

EUCODONIA.

The sections of *Eucodonia* and *Nægelia* are typed in habit by the well-known *Gesneria Zebrina*, in its exceedingly picturesquely tinted leaves, the flowers being produced on large terminal cone-shaped racemes in drooping funnel-shaped flower-tubes of rich violet and bright rose, with pretty dotted centres.

	Per plant.
<i>Nægelioides</i> . Flowers in large spikes, violet, changing to velvety crimson, centre of the throat bright yellow, spotted with crimson.....	\$0 25
<i>Nægelioides Diamantina</i> . Very fine foliage, short peduncles terminated by large flowers of purplish violet, very striking.....	0 25
<i>Nægelioides Van Houttei</i> . Large spikes, perfect form, vivid carmine spotted with flesh-colored stripes on a white ground.....	0 30

Per plant.

Nægelioides Lilacina. This surprising novelty may be considered as a type of perfection both for the form as well as for the distinctive character of the flowers, which are of a beautiful clear lilac with white throat, charmingly spotted and speckled with citron, lilac and yellow. A profuse bloomer, very attractive..... 0 50

TYDÆA.—A Section of *Achimenes*.

The group of *Tydæa* includes the late autumn and winter flowering varieties, producing a long and brilliant succession of bloom, and include the most florid colors found in the other sections, of pure rose, amaranth, rosy crimson, scarlet, cerise, rose, orange-tinted scarlet, and white shaded with rose, elegantly spotted or barred in nearly the whole section.

Per plant.

Belzebuth. Flowers crimson, covered all over with black spots, like the skin of a leopard.....\$0 40
Agar. White suffused with carmine and dotted with bright chamoy..... 0 30
Display. Tube is a bright carmine, the lobes are pink, reticulated with crimson; the mouth is a rich carmine and the throat white, blotched orange..... 0 30
Gigantea. Majestic growth, flowers vermilion and golden yellow..... 0 30
Junon. Tube purple red, limb scarlet, with reddish dots..... 0 30
Lady Digby. Brilliant crimson, beautifully spotted 0 30
Robert le Diable. The largest flower; ground color dark vermilion, covered with large jets, black fantastic figures of the most astonishing features..... 0 30
Wonder. Magnificent; flowers, which are of a dazzling bright orange vermilion, veined with black, are produced in majestic spikes..... 0 30
Compacta Floribunda. Flowers very compact, smooth and of a velvety cherry red with parallel markings of bright amaranth..... 0 30
Uranie. Very large flower, finely striped with scarlet upon a lilac ground, orifice deep straw yellow..... 0 30
Alba Kermesina. White ground, shaded with a bright rose and beautifully marked with crimson..... 0 30
Sape. Fiery vermilion, centre golden yellow striped and dotted with crimson..... 0 30
Thalie. Large well-formed flower, tube vermilion, limb lemon yellow with large vermilion spots and flakes..... 0 30

Price per dozen, \$3.00.

NÆGELIA.

Cerise d'Or. Exterior cherry red, interior golden yellow, covered with cherry red spots, color quite new..... 0 30
Cinnaberina rosea. Beautiful clear vermilion, tube almost transparent, interior carnation, marbled with white, throat citron yellow, speckled with gold..... 0 30
Madame Van Houtte. Magnificent terminal racemes, very branching, tube bright rose, lips white, striped and sprinkled with carmine..... 0 30
Mad. Paul Boulez. Beautiful pale pink, speckled with amaranth, golden yellow throat, spotted with deep scarlet..... 0 30
Sceptre cerise. Very bright vermilion cherry, covered with golden yellow spots, magnificent branching pyramids of flowers forming splendid specimens..... 0 30
Fulgida Van Houttei. Its sparkling vermilion, its snow-white interior, covered with distinct balls of vermilion, make this plant an object of great beauty..... 0 30
Sceptre Brilliant. Flowers of a brilliant vermilion and a shading of the most beautiful shiny lilac..... 0 30

	Per plant
Fulgida Concolor. Is a magnificent plant, producing vermilion colored flowers of great brilliancy.....	0 30
Alice. Flesh colored, shaded carmine on tube on edge of limb.....	0 50
Dauw. Corolla white, sprinkled with rose, throat golden yellow, distinctly dotted with vermilion.....	0 30
Fulgida Concolor. A magnificent variety of a fine vermilion.....	0 30
Helene. Crimson, throat white pointed with crimson.....	0 50
Itambire. Dark green foliage marked black, large spikes, crimson with white and gold, marbled with vermilion.....	0 30
Leonie. Numberless lemon yellow flowers, a first-class variety.....	0 40

PLECTOPOMAS.

Candidum. Flowers large, of perfect form, snow white with broad lemon yellow blotch.....	0 30
Corallinum. Very large coral red flowers with chrome yellow blotch.....	0 30
Viola. Flowers are of perfect shape, of the most exquisite bright rose, ornamented on the upper part with a large white spot, speckled with carmine and flaked with citron.....	0 30
Gloxiniæflora. A magnificent species with large white flowers, throat golden yellow, blotched with scarlet.....	0 30
Gibsonii. Fine dark blue flowers.....	0 30
Hieroglyphicum roseum. Rose color ornated with hieroglyphs, flowers a beautiful pyramid.....	0 30
Rollisonii. Fine pale blue flowers.....	0 30
Labyrinthicum. Flower is rich vermilion, with fantastic figures resembling geographical demarcations.....	0 30
Triumphans. Habit compact, corolla lilac, interior white with fine amaranth spots and pretty lemon yellow bands, abundant bloomer.....	0 30
Great Eastern. Large light rose flowers, whitish macule, pointed with carmine.....	0 30

GLOXINIAS.

The varieties of this genus are all very handsome, producing abundance of magnificent flowers of the most beautiful description. The tubers should be potted in February or March. Place in a little heat to start them into growth; water sparingly till the plants are well-established. When in bloom bring them into the conservatory or drawing-room. After the plants have done blooming dry gradually off, by withholding water from their roots; afterwards remove them to a warm, dry place.

The following are superlatively beautiful:

Those marked thus (e) have erect flowers.

- (e) Cinderella. Pure white with pink band, most beautiful.
- (e) Brilliant. Bright crimson, margined with rose, rich violet throat.
- Ernst Banary. Dark lavender, mottled with white, a beautiful flower.
- (e) Flag of truce, pure white, large and fine.
- (e) Georgina. Fine lilac, covered with magnificent creamy white palmes.
- Henry Husson. White, with a lavender lip, a large showy flower, beautiful.
- Leon Vanderwee. Flowers having six divisions, each covered with dark, almost black spots, edges white.
- (e) Madame de Smet. White with violet lobes, a beautiful marked variety.
- Rose d'Amour. Rose carmine, cream colored throat, zone of cerise.
- Mogul. Tube dotted with red, purple crimson limb, very clear at the border.
- Nero. Dark purple, white throat, a very beautiful flower.
- (e) Princess Royal. Tube and edges white, throat mottled with dark blue, fine.
- Scarlet Gem. Crimson scarlet, extra fine.
- Theresa Saul. Scarlet carmine margined with white, very fine.
- (e) Virginalis. Tube and throat white, broad margin of carmine.

Price 25 cts. each; \$2.50 per doz.

NEW GLOXINIAS—Veitch & Sons—New Set.

Per plant.

(e) Boule de Neige. Pure snowy white, fine form, an abundant bloomer.	0 40
(e) Derniere Mode. White with centre of lobes spotted maroon, throat dotted with lilac blue, extra.....	0 40
Duchess of Teck. This fine variety has extra large drooping flowers of a rich magenta, shaded with maroon; the ground color is lighter at the edges of the lobes. It is very distinct.....	0 40
Excelsior. Flowers horizontal with lower side lobes of corolla enlarged; deep glowing crimson, a very robust free flowering variety.....	0 40
(e) Liseré D'Argent. Intensely bright crimson scarlet, distinctly margined with pure white; light throat beautifully spotted and freckled with carmine, and shaded with rosy carmine.....	0 40
Madame Hatti. Fine scarlet flower; throat deep red shaded with purple slightly blotched with white; margin rosy scarlet.....	0 40
Miss Hannah de Rothschild. Large white, tinted with purple; throat purple-shaded mauve, lower part creamy white.....	0 40
(e) Mrs. Haines. Splendid erect flower, throat purplish violet, bordered with vermilion scarlet, with deep margin of rose color.....	0 40
Prince Arthur. A large deep purple flower, the two upper lobes and margin light purple.....	0 40
Prince Leopold. Throat purplish violet, scarlet margin shaded with pink, very fine.....	0 40
The Hon. Mrs. York. Creamy white throat, bordered with mauve, with a margin of rich pink.....	0 40
(e) Vesuvius. Flowers erect and crimson; scarlet crimson of an intense fiery lustre, the most brilliant color yet obtained; the throat is lighter and softer than the lobes of the corolla and spotted with deep crimson.	0 40

The Set of 12 for \$4.00.

Golden Model. Fine dark zone on yellow ground.	
L'Africaine. Leaves yellow, with a deep bronze zone.	
Mrs. Charles Barry. <i>Golden Bronze</i> section, scarlet flowers.	
Mrs. Lewis Lloyd. Golden yellow, with zone of reddish chocolate.	
Monarch. Large broad yellow leaf, with a dark zone.	
Perilla. Yellow leaf with the dark zone, orange scarlet flowers.	
Pride of Mount Hope. Yellow, with a broad chocolate zone.	
Red Ring. Zone regular golden yellow disc and margin.	
Red Wing. Bright and well-defined zone, fine leaf.	
Rev. Mr. Radcliffe. A bright yellow ground, with a distinct zone.	
Safrano. Chocolate red zone on golden leaf ground.	
Sceptre d'Or. Golden leaves, bronze red zone, rose color.	
Waltham Gem. Broad yellow leaves, bronze zone, flowers bright red.	
Mrs. Thos. Archer. Yellow leaf, deep bronze zone.	
The Shah. A bright chocolate zone, yellow leaf ground.	
John Offin. The brightest yellow, with bright red zone.	
Prince Arthur. Color bright and clear, neat habit, very fine.	

HAPPY THOUGHT—*Geranium*.

	Per plant.
Happy Thought. Instead of the usual yellow outer belt or margin, in this instance, the color forms a large conspicuous cream yellow blotch in the centre or disc of the leaf. The flower is a rich magenta rose, tinted with scarlet.....	\$0 25

GOLDEN TRICOLOR GERANIUMS.

Price 25 cents each. \$2.50 per dozen, (save where priced.)

Bed of Gold or Artemus Ward. Distinct from all others, the yellow is very bright, with a blotched green zone.	Countess of Tyrconnell. Yellow leaf margins, with a dark bronze and bright carmine zone, beautiful and distinct.
---	--

- Countess of Craven.** Broad margin of clear golden yellow, with a rich crimson and bronze zone.
- Crown Jewel.** This has a fine bold leaf and good colors.
- Edwina Fitzpatrick.** Leaves green, bronze red zone, belted with crimson, edged with golden yellow.
- Gold Finch.** Broad gold margin, broad zone, tinted with flame-red.
- Golden Pheasant.** Leaves green centre, bounded by a splendid bronze red zone, rich yellow belt.
- Humming Bird.** The colors are very regular, and it has a beautifully shaped leaf; it is certainly one of the best.
- Jetty Lacy.** Broad gold margin, deep crimson zone, good grower.
- Last of the Clan.** Magnificent variety; leaves flat and smooth, with bright green centre; zone broad and very conspicuous by its brilliant scarlet color, indented with dark chocolate. 50 cts.
- Lady Cullum.** Its ample rich bronze crimson ground tints being intensely suffused and bordered a brilliant flame color.
- Louisa Smith.** Deep yellow, margined with distinct zone of bright red and black, light green centre.
- L'Empereur.** Margined with golden yellow, rich red and black zone.
- Macbeth.** A beautiful and distinct variety, its habit dwarf and bushy, with a good flat leaf, a splendid dark bronze zone, and a bright scarlet ring, with a good green disc. 50 cts.
- Mrs. Turner.** A quicker grower. Vivid colors; one of the best.
- Mrs. George Foust.** A beautiful variety. Very large smooth leaves, with broad rich zone of dark maroon interspersed with bright rosy scarlet and fiery crimson. The margin is of a pure golden color, growth vigorous and compact. 50 cts.
- Mrs. Benyon.** Zone bronze colored, richly blended with crimson and belted with a large golden margin.
- Mrs. Pollock.** Leaves green, bright bronze red zone, belted with crimson, edged with golden yellow.
- Needle Gun.** Foliage, margined with deep rich yellow, zone well defined, bright and lively, vigorous grower, gay and very effective. 40 cts.
- Queen Victoria.** Leaf margin deep golden yellow, with a rich broad zone of maroon, interspersed with fiery scarlet, deep olive green centre.
- Queen of Tricolors.** Crimson scarlet zone, with brimstone edge, neat compact habit.
- Rosina Saul.** This beautiful tricolor has been raised in our establishment, is a very vigorous grower, zone exceedingly bright and clear, with a bright yellow margin, the finest tricolor out. 50 cts.
- Sophia Dumaresque.** A beautiful variety, golden leaf margins, effectively marked by a brilliant flame-tinted scarlet zone.
- Socrates.** Rich golden leaf margin, zone flame red upon a bronze belt, flowers scarlet, with a white eye.
- Sunset.** A rich broad outer golden belt, the inner margin of which is overlaid with a bright carmine red zone, and intersected with flame scarlet tints.
- Star of India.** Margin deep golden yellow, zone brilliant flame scarlet, fine grower and habit, a distinct and very beautiful variety. 50 cts.
- Earl of Derby.** Foliage medium size, with very broad zone of dark chestnut red and black, leaving only a very small green disc, and narrow margin of rich golden yellow; habit compact. 50 cts.

SILVER MARGINED AND TRICOLORED GERANIUMS.

These very beautiful Geraniums should be grown more generally. Nothing can be more beautiful than their foliage, during the winter, in the parlor or conservatory, and strong plants succeed well out doors during summer.

Price 25 cents each, (save where priced.) \$2.50 per dozen.

- Albion Cliffs.** This is a most beautiful variety, leaves dark green, edged with pure white.
- Brilliant.** Leaves margined with white, scarlet flower.
- Burning Bush, (Tricolor.)** Leaves margined silver, with red zone.
- Bright Star.** It has a pure white edge to the foliage, rich, well formed scarlet flowers.

Charming Bride, (Silver Tricolor.) This is distinct, large reflexed foliage, strong grower, color very bright.

Denticulatum Variegatum. A finely variegated variety of *Denticulatum*. It is as highly scented as the species.

Eva Fish. A narrow lake rose zone, on a vandyked chocolate ground, with white leaf margin.

Excellent. A very high-colored carmine scarlet zone, with a good flat leaf.

Flower of the Day. Leaves white, scarlet margined flowers.

Goliah, (Silver Tricolor.) The most vigorous of all silver tricolors, robust in growth, with large well marked foliage.

Italia Unita, (Tricolor.) Leaves margined with white, bright carmine zone, flowers scarlet.

Little Beauty, (Tricolor.) Silver margined leaf, with pretty rose tinted zone, flowers scarlet.

Lady Plymouth. A variety of the old favorite, rose scented, with silver variegated leaves, of vigorous habit.

Mrs. Clutton. A strong grower, with the best color of any yet sent out; one of the most effective.

May Queen. This has the flattest leaf in this section, pure white edge, bloom of a bright rosy pink.

Magenta Queen. Broad green leaf disc or centre, slightly lobed, good flower truss, with bright lake carmine blossoms.

Miss Kingsbury. This is a first-class bedding variety; good vigorous grower, fine foliage.

Mrs. Vidler. A fine broad leaf, pure white margin, a very fine variety.

Pearl. Leaves deep green, broadly edged with white.

Queen of Queens. Leaves margined with silver, large brilliant scarlet flowers.

Silver King. Leaves margined with silver, scarlet flowers.

Snowstorm. A neat habit, leaf deep green centre, with a broad white margin.

Prince Silverwings. This is a beautiful kind; it is a cross with *Stella*, with a silver and gold tricolor leaf.

IVY-LEAVED GERANIUMS.

This beautiful section is admirably adapted for suspended baskets, training on trellis work, &c

Price 20 cents each, (save where priced.) \$2.00 per dozen.

Alice Lee. Leaf gold color, deep bronze zone, flowers violet crimson.

Ariosto. Habit trailing, broad creamy white margin, flowers rosy pink.

Butterfly. Flowers of a bright rose, striped with crimson.

Argus Variegated, of strong growth.

Coccinea. A very neat variety, with shining foliage, flowers scarlet.

Duke of Edinburgh, (Holly Wreath) This variegated Ivy-leaved Geranium has a broad margin of white.

Elegans Floribunda. A very elegant variety, flowers bluish white.

Emperor. A scandent variety, flowers rose, with spot on upper petals.

Fairy Belle. Angular shield-shaped leaves, and bluish pink flowers.

Grand Duchess Maria. A light violet pink, striped with dark crimson.

L'Elegante. Foliage green, with broad bands of white, and producing a mass of pure white flowers. 25 cts. each.

Lady Edith. Flowers crimson, tinged with purple.

Peltatum Elegans. Flowers pure mauve, a profuse bloomer.

Princess Thyra. Flesh white centre, with crimson spots on upper petals.

Remarkable. Leaves marked with a dark Vandyke Ivy-shaped zone, and flower truss of warm rose.

Willsii Palmata. Color lilac and mauve.

PELARGONIUMS.—*Show and Fancy.*

In describing the color, the term "blotch" refers to the large spots on the two upper petals, and "spots" invariably refer to the dark marks upon the centre of the lower ones. Those marked (f.) are fancies.

Price 30 cents each, (save where priced.) \$3 per dozen.

Belle of the Ball. Rose, painted with carmine.

Beadsman. Pink, with maroon spot.

- Caliban. Light shaded crimson, dark maroon blotch.
- Captivation. Pure white, dark spot.
- Caractacus. Lower petals purple, upper rich crimson.
- Charles Rouillard. Plum blotch, densely veined, large truss, free bloomer.
- Crimson King. Crimson, with maroon blotch.
- Clio. Rosy crimson, dark spot and blotch.
- Dr. André. Flowers blush pink ground, the margins of petals elegantly fringed, quite unique, a lovely pot plant.
- Demosthenes. Rosy crimson, dark blotch and spot.
- E. G. Henderson. Pure white, with dark spots.
- Eugene Duval. Light purple, dark blotch.
- General Taylor. Carmine with crimson blotch.
- Gazella. Bright rose carmine, with white centre.
- Hornet, (f.) Lower petals deep maroon, upper nearly black.
- John Hoyle. Large flower, orange red, light centre, richly marked with dark red, top petals rich velvety maroon, very showy.
- Lady of the Lake. Lower petals orange rose, painted with crimson, very dark maroon top petals, with a narrow even crimson edge, white centre.
- Lord Napier. A smooth and beautifully formed flower, lower petals rich deep orange rose, dark maroon blotch on top petals, shaded with crimson.
- Lord Clyde. Bright scarlet, maroon blotch.
- L'Arise. White veined crimson, dark blotch.
- Lilac Model. Lilac lower petals, white centre, rich velvety cloud.
- Mad. Buzard. Delicate pink, white centre and margin.
- Mrs. Alfred Wigan. Pink, with clear white centre and edges.
- Mrs. Mendel. White, with delicate spots of rosy lilac, charming.
- Mazeppa Superb. Light blush, with crimson spot.
- Medaille D'Or. Deep cherry, dark blotches.
- Norma. Lilac rose, light centre, dark blotch and spot.
- Nonpareil. Large white centre, rose lower petals, tinted with carmine, maroon top, with shaded carmine margin.
- Oriental. Bright lake lower petals, with white centre, rich dark maroon top, narrow margin of bright carmine.
- Pink of Perfection. Pink of a pleasing new shade, light centre.
- Prince Charlie. White ground elegantly tipped, with rose violet blotches, neat compact habit.
- Princess Teck. White, with carmine spots, very smooth, a most profuse bloomer, and is sure to become a general favorite.
- Queen of Whites. Pure silvery white, very glossy rich upper petals, fine smooth flower.
- Rodrigues. Purplish rose, dark spot.
- Rosalind. A very early flowering variety, deep crimson veined and blotched; fine for market.
- Sir Jos. Paxton, (f.) Very dark, light centre, profuse bloomer, fine.
- Sunrise. Delicate flesh scarlet, dark blotches.
- Speculum Mundi. Light crimson, veined and striped, showy.
- Unique Meillez. Cherry scarlet, a very distinct color.
- Virginian Improved. Pure white, light blotch, extra.
- Witch. Pure white, purple blotch.

NEWER and RARER SHOW and FANCY PELARGONIUMS.

All the finest and most distinct new flowers will be found in this beautiful collection.

Price 50 cents each, (save where priced,) \$4.50 per dozen.

Crispiflorum. See NOVELTIES.

Coquette de Plessis. White, with a bright rosy-carmine blotch on upper petals, and feather-like centre, crimson lines, under petals tipped with rosy-crimson, with white side belts.

- E. G. Henderson.** Fine carmine belted, crimson blotch and white margin, flowers of fine form, good habit, a lovely show flower.
- Hebe the Beautiful.** Color fine cinnabar scarlet, dark blotch and elegantly frilled petals, a vigorous and compact grower, and profuse bloomer, admirable for forcing or early spring blooming, one of the best for florists, so lovely and distinct.
- John Hoyle.** Large flower, orange red, light centre, richly marked with dark red, top petals rich velvety maroon, very showy.
- Madame Seelye.** A very beautiful flower raised by that eminent amateur, Dr. Seelye, Cleveland, Ohio. The flower is large, finely formed, centre purplish lilac, shaded on upper petals to blackish purple; extra fine.
- Memorandum.** White, finely reticulated with rich plum colored lines, very distinct.
- Midas.** Centre orange carmine, upper petals lightly veined with maroon, a very attractive flower.
- Malvæforum.** Flower large mallow-form, fine lilac, with fine light lively rose blotches, very large umbels, very fine, a grand variety.
- *Prince of Novelties.** See NOVELTIES.
- *Prince of Pelargoniums.** See NOVELTIES.
- Striata Pelargonium.** The habit strong, vigorous, an abundant bloomer, fine trusses; color scarlet, upper petals with a dark blotch, and all the flowers are beautifully striped with pure white.
- *Prince of Wales.** See NOVELTIES.
- Rosa Munda.** Crimson-scarlet, dark blotch and spots.
- Sultana.** Rosy-purple, top petals finely marked black, lilac margin and white centre.
- *Triomphe de St. Maude.** See NOVELTIES.
- Woman in White.** Pure white, with maroon blotch, a lovely white flower.
- Queen Victoria.** See NOVELTIES.
- Warrior.** A bright and fine flower, rich glossy crimson, black spot on upper petals, with margin of scarlet lake.

HYBRID PERPETUAL PELARGONIUMS.

A class of Hybrid Pelargoniums, of distinct habit, free bloomers, mostly fragrant foliage, good growers, excellent for bedding out, baskets, &c.

Price 25 cents each, (save where priced.) The Set of 12 for \$3.00.

- | | |
|--|--|
| Benoiton. Very rich dark crimson, a splendid bedder. | Picturatum Odoratum. White, upper petals spotted, foliage like the old rose. |
| Bridal Ring. Pure white, crimson spot on top petal, neat and elegant. | Rollison's Unique. Crimson flowers, free bloomers, fine. 30 cents. |
| Cardinal Richelieu. Bright scarlet crimson, dark blotch. | Rollison's Unique Aurora. Bright glowing crimson, the upper petals darkly spotted, also blotched with white, and feathered with maroon. 30 cents. |
| Lady Mary Fox. Fine bright scarlet, free grower, good bedder. | Rollison's Unique White. A white variety of this very beautiful and useful plant. 30 cents. |
| London Blue. Color bluish shade, very distinct, fine. 30 cents. | Sunray. Color a bright scarlet, a profuse and continuous bloomer and free vigorous grower, a grand variety. 30 cents. |
| Madame Csillag. A bright maroon tint, neat habit, a pretty pot plant. 30 cents. | |
| Rollison's Unique Diadem. Rich violet crimson, the upper petals darkly blotched and feathered, and the latter intersected with violet rose. 30 cts. | |

NEW HYBRID PERPETUAL PELARGONIUMS.

This new section is of Bavarian origin, and is recommended for its perpetual free blooming character and the glowing colors of the flowers. The plants commence blooming in the spring and continue until autumn.

Price 30 cents each. The set of 6 for \$1.50.

- Hofgärtner Kellermann. The upper petals of a dark fiery carmine red color, with strongly marked dark spots and veins, the under petals light carmine.
 Hofgärtner Huber. A fine round flower; the upper petals rosy-purple, darkly spotted and veined, the under petals rosy-carmine, with light veins.
 Madame Glevitsky. A magnificent flower; upper petals of a fine vermilion color, veined and spotted with purple, under petals vermilion.
 Freund Ebbe. Bright carmine, with dark veins and spots; very rich and attractive.
 Oberbürgermeister Heim. Rich velvety crimson, very darkly spotted; a splendid flower.
 Hofgärtner Braun. A beautiful flower of a very fine carmine, with intensely dark veins and spots.

SWEET-SCENTED and CAPE SPECIES.

Price 20 cents each, (save where priced.)

- | | |
|--|--|
| Apple-Scented. Very distinct. | Little Gem. Neat compact habit, very fragrant. |
| Balm-Scented. Balm scented. | |
| Capitata. Finely cut leaves, highly rose scented. | Lemon-Scented, (crispum.) A beautiful species, very desirable. 30 cts. |
| Citron-Scented. A hybrid between the apple and nutmeg. | Lemon-Scented. Large-leaved, larger foliage and freer grower than the other species. 25 cts. |
| Dr. Livingstone. Fine new sweet-scented, cut-leaved. | Comptoniana Rosea. Winter flowering species, with rosy lilac flowers. 25 cts. |
| Echinatum. (Cape Species.) Fine winter bloomer, flowers white. 50 cts. each. | Lady Scarborough. Small foliage, delicately scented. 25 cts. |
| Fragrans Odoratissimum. Nutmeg scented. | Quercifolium Nigricans. Oak leaved, veined black. |
| Mrs. Taylor. A fine variety with a rose scent and scarlet flowers. 25 cents. | Quercifolium Fair Helen. Scarlet flowers. |
| Peppermint-Scented, (Tomentosum.) | Prince of Orange. Orange-scented, fine. 25 cents. |
| Peppermint-Scented, (Saul's.) Foliage much superior to the old. | Shrubland Pet. Small miniature growth, rosy red flowers. |
| President Thiers. In the style of "Shrubland Pet;" the flowers are larger and more fragrant. | Rose-Scented. Two varieties. |

PELARGONIUM FILICIFOLIA ODORATA.

Per plant.

This was raised from the old *Denticulata*, but it is much more finely cut in the leaf, and is a very strong grower. It never changes its beautiful Fern-like appearance, and is one of the easiest Geraniums to grow at all seasons of the year. The fragrance is pleasing, and it is an exceedingly beautiful plant.....\$0 25

PELARGONIUM SCABRUM.

This is a very fine scented Cape species, a free grower, with pretty foliage and good habit, deliciously lemon-scented..... 0 30

FUCHSIAS.—General Collection.

The following list is a selection of the best varieties, in habit of growth, distinct shades of color, and both single and double flowers :

Those marked (*d*) have double corollas.

Price 20 cents each, (save where priced.) \$2 per dozen, \$15 per 100.

- Admiration, (*d*.) A beautifully formed flower; tube and sepals rich crimson, the latter completely recurved; corolla well expanded and of a purplish crimson color. 30 cts.
- Admiranda. Tube and sepals carmine, double white corolla, neat compact habit, extra. 30 cts.
- Agnes. White sepals, crimson tube and corolla.
- Agamemnon, (*d*.) Rich scarlet sepals, corolla plum.
- Arabella. Pure white tube and sepals, corolla rose.
- Arabella Improved. White tube and sepals, reflexed corolla a rich rose.
- Angelina Braem, (*d*.) Deep scarlet tube and sepals, pure white, striped with rose.
- Alpha, (*d*.) Coral red tube and sepals, the finest of the double kind.
- Alsacien-Lorrain. Reflexed carmine sepals, white corolla, very double.
- Beatrice. A single variety, tube short and stout, sepals deep crimson; corolla reddish purple; a fine shaped flower. 30 cts.
- Black Prince. Tube and sepals waxy carmine, sepals large and broad, and large open pale pink corolla, margined with deep rose.
- Covent Garden White. Equally valuable in the white tube and sepal section, superseding the well-known *Arabella* and *Mrs. Lye*; the best market and decorative variety ever yet sent out. 25 cts.
- Compacta Superba. A beautiful variety, sepals crimson, corolla rich amaranth; very compact, free flowering habit. 30 cts.
- Chicago, (*d*.) Carmine tube and rich light carmine sepals, white corolla.
- Deutscher Kaiser, (*d*.) The single *F. Germania* was much admired; this is a double flowered variety.
- Duchess de Gerolstein. White tube and sepals, corolla crimson.
- Dominiana. Large crimson tube, fine winter bloomer. 25 cents.
- Desideratum, (*d*.) Tube and sepals deep scarlet, reflexed, corolla bluish violet.
- Extraordinary, (*d*.) Sepals scarlet, large, corolla rich violet blue.
- Earl of Beaconsfield. Vigorous growing, free flowering, beautiful habit, quite distinct, and described by Dr. Masters as one of the best hybrid varieties of *Fuchsias*; the blooms are 3 inches in length, and of great substance, the tube and sepals are of a light rosy carmine, corolla deep carmine. 40 cts.
- Elm City, (*d*.) Corolla forming rich crimson balls, very good.
- Emperor of Brazil, (*d*.) Crimson tube and sepals, corolla a rich purple.
- Emperor of Germany, (*d*.) Tube and sepals scarlet, corolla deep red.
- Francis Desbois, (*d*.) Red sepals, violet purple and corolla, very double.
- Fairy Queen. Tube and sepals white, the latter finely recurved, corolla rich rosy carmine.
- Beauty of Swanley. Waxy white tube and sepals, the latter most elegantly reflexed; corolla bright pink and well shaped.
- Cannell's Favorite. Most beautiful tubes and sepals pure white, the latter very broad, with the best reflex; corolla scarlet.
- George Peabody, (*d*.) Fine habit, corolla double white, splendid.
- Guillaume le Conquerant, (*d*.) Corolla violet blue, large and double.
- Grandidens. Tube and sepals large, recurved, color rich carmine, petals bright purple.
- Grande Duchesse Maria. Sepals white, recurved, corolla deep rose.
- Inspector. Tube and sepals white, the latter reflexed, corolla cup shaped, rosy pink, with white base.
- King Alfonso. Sepals carmine scarlet, slightly recurved; corolla very large and double, rich violet.
- Little Bo-Peep. Crimson tube and sepals, purple corolla.
- Little Treasure. Crimson tube and sepals, corolla violet.
- La Nieve, (*d*.) Corolla very large and double, snow white, sepals red carmine.

- Lady Dorothy Neville. Tube and sepals bright carmine, corolla a mauve pink.
- Lord Byron. Tube and sepals bright crimson, with large open bell-shaped black corolla, the darkest yet known; fine habit, with sepals finely recurved.
- Lady Brodie. Tube and sepals medium sized, bluish white, the latter well recurved, corolla rich rose.
- Mrs. H. Cannell, (*d.*) Equal to the darker kinds in habit, size and growth, and is the most valuable acquisition. The whole appearance of the plant much resembles the dark corolla *Avalanche*.
- May Queen. Tube and sepals pure white, recurved, corolla violet rose.
- Mrs. E. Bennett. White corolla, forming a beautiful pyramid.
- Our Future Queen. A beautiful light Fuchsia, tube and sepals pure white, reflexed, corolla red, suffused with purple.
- Prince Leopold, (*d.*) Deep crimson tube and sepals, corolla dark violet.
- Princess Alexandra. Tube and sepals bluish white, corolla carmine.
- Peasant Girl. Tube and sepals white, finely recurved; corolla the finest tint of porcelain blue. 25 cts.
- Queen of Beauties. Tube and sepals pure white, corolla crimson.
- Racemosa. A very distinct species. "It grows not over 18 inches high, forming a round bush, every shoot being terminated with a raceme of orange scarlet wax-like flowers." 30 cents each.
- Rose of Castile. Blush pink, violet corolla.
- Rev. T. Wiltshire. One of the best bright blue corolla, of the most perfect shape.
- Saintine. Flowers single, globular, petals mauve, sepals clear rose, beautiful habit and free bloomer; a beautiful flower. 30 cts.
- Souvenir de Chiswick. Bright scarlet sepals, recurved, purple corolla.
- Striped Unique, (*d.*) Tube and sepals scarlet, purple, with scarlet stripes.
- Symmetry. Tube and sepals crimson, corolla large, rich violet plum.
- Sunray. One of the most beautiful plants; colors as rich and clear as in any Tricolor Pelargonium; the leaves, which are large, are of a rich bright crimson, white and bronzy green in about equal parts. Scarlet tube and sepals, with light pure purple corolla. 25 cts.
- T. T. Lawden. Large flower of the dark blue corolla class, good strong growth.
- Tower of London, (*d.*) Carmine scarlet sepal, violet blue corolla.
- Vainquer de Puebla, (*d.*) Sepals bright red, corolla white, feathered with rose.
- Warrior. Sepals crimson, corolla large rosy purple.
- Warrior Queen. Sepals scarlet, with a large bluish violet corolla.
- White Eagle. White corolla, with rich scarlet tube and sepals, recurved.
- White Perfection. Sepals white, elegantly recurved, corolla purple.

NEW FUCHSIAS.

Price 50 cents each, (save where priced.)

- Adine. A very pretty variety, producing beautiful flowers with white tube and sepals, the latter completely reflexed, and rich deep rosy magenta colored corolla.
- Carminata. Tube and sepals bright carmine, the latter very broad and well reflexed, showing well the corolla, which is a deep violet; the petals are very round and smooth.
- Camille Flammarion. A free-blooming variety of good habit, producing large flowers with reflexed sepals of a rosy red, and well-formed corolla of a reddish violet. 75 cts.
- Bland's New Striped. A great acquisition to this class; tube and sepals dark and glowing scarlet, former very short, corolla rich plum-colored purple, regular and distinctly striped red and rose, pyramidal shape, very free bloomer.
- Andre. An extremely free flowering variety, obtained from a cross between *F. Dominicana* and *F. Serratifolia*, resembling the latter in the form of its flowers, which are very large, with open corolla of a pale orange color and long carmine tubes and sepals; a winter bloomer. \$1.00

- Compacta Floribunda.** Tube crimson, and sepals crimson, reflexed, corolla rich violet, beautiful habit and profuse bloomer.
- Flambeau.** Short tube and well reflexed sepals crimson; very large and full corolla of a dark violet, shaded with azure, and striped and spotted with scarlet. 75 cents.
- Galatea.** Rosy-carmine tube and sepals, the latter very large and broad, and horizontally reflexed; stout well formed corolla of a rich and bright bluish purple, a remarkable flower from its size and immensely thick corolla. 75 cents.
- Gem of Ipswich.** Dark coral red tubes and sepals, purple ground colored corolla, distinctly striped.
- Improvement.** The tube and sepals of this variety are pure white, the latter well reflexed, of good substance, the corolla carmine shading to rose.
- Jeanne d'Arc.** Fine large flowers with tube and very long reflexed sepals of a beautiful coral color, and large expanded corolla of snowy whiteness.
- J. Becker.** Tube and sepals carmine, shape of *F. Globosa*, corolla pure white semi double, finest habit, profuse bloomer.
- Jean Sisley.** A vigorous plant, very long tube, carmine tube and sepals, corolla orange, a winter bloomer, very fine. \$1.00.
- Memphis.** Tube and sepals of a bright and rich crimson color, the sepals gracefully reflexed; large and well-expanded corolla of a rich purple color; a fine large flower.
- M. Dufaure.** A very floriferous variety of good habit, producing beautifully formed flowers, with rosy salmon corolla and elegantly recurved sepals of a yellowish salmon color with green tips; extremely distinct. 75 cents.
- Mrs. Burroughes.** The tube of this variety is long and stout, pure white; the sepals are also white, and much reflexed; the corolla, which is barrel-shaped, is a crimson lake.
- Rainbow.** See NOVELTIES.
- Ray of Light.** A pure white corolla, low bushy habit, early and free bloomer, a splendid market plant.
- Syringæflora.** Large truss of flowers resembling in shape a bunch of lilac, color rosy lilac, winter bloomer.
- Snow Fairy, (d.)** "Growth dwarf and compact, freest blooming of all the double whites, literally covering the plant with its beautiful flowers; calyx and sepals shining red, corolla pure white." 75 cents.
- Splendens.** A magnificent species, the finest winter flowering Fuchsia ever introduced, and is most invaluable for that purpose. It requires a warm intermediate house, and if the plants are prepared about mid-summer, and grown on to healthy plants, they will continue to produce an abundance of orange scarlet flowers throughout the entire winter.
- Triomphant.** Tube and sepals carmine, very large lilac corolla, fine habit and free bloomer; fine.
- Unica, (d.)** Tube and sepals rose, corolla double white, very pure; a charming plant of neat compact habit.

DAHLIAS—General Collection.

SHOW FLOWERS.

Our collection of Show Flowers received first premiums at the Maryland Horticultural Society's exhibition for the past three years.

Our collection of this beautiful flower is unrivalled. We import annually all the new varieties of merit, and none are retained in our collection that do not come up to the standard of perfect flowers. It now embraces all the finest Show Flowers in cultivation. Dry pot roots of most can now be supplied, or strong plants in May, either can be sent long distances or by mail.

Price 25 cts. each, \$2.50 per dozen; 50 very fine varieties for \$9. Mailed free.

Ada Tiffin. Light peach, beautiful and chaste edge flower, splendid form. **Aristides.** Deep purple, splendid form.

- Alexander Cramond. Shaded maroon, a most striking flower.

- Snow Wreath, (new.) Truss large, compact habit, the nearest approach to pure white. 25 cts.
- Triomphe, (new.) Enormous panicles of a beautiful violet with a white eye, good habit, flowers freely. 50 cts.
- The Standard. Violet, large truss.

LANTANAS.

These are exceedingly valuable plants for bedding out during summer. They thrive in our hot, dry, sunny weather when so many of our other plants suffer.

Price 20 cents each, (save where priced.) \$1.50 per dozen.

- California, (new.) A rich yellow, flowers bordered with purple, extra fine. 50 cents.
- Corbeille d'Or. Clear yellow, dark centre, very dwarf.
- Fabiola. Rose, yellow and orange.
- Faust, (new.) A beautiful yellow, changing to vermilion, very beautiful. 50 cts.
- Madame Dufoy. Pale yellow and rose, semi-double.
- Distinction. Rich orange yellow, fading into rose.
- Favorite. Yellow, merging into purplish crimson.
- Princess Louisa. Yellow, merging into rosy crimson.
- Alba Grandiflora. Fine pure white.
- Aurantiaea. Beautiful orange.
- Comtesse de Morny. Yellow, changing to rose.
- Crocea Superba. Orange and red.
- Empereur des Francaise. Scarlet and orange, fine habit.
- La Nieve, (new.) Very free, a mass of snow white flowers.
- Jeanne d'Arc. White, yellow centre, passing to violet.
- Toison d'Or. A beautiful deep chrome yellow, very fine.
- Trianon. Red, bordered with yellow, very distinct, extra. 40 cts.
- Comtesse de Biencourt, (new.) Bright rose and orange centre. 30 cts.
- Jean Bart. Buff and dark crimson.
- Lutea Superba Grandiflora. Golden yellow.
- Madame Hoste. Golden yellow, passing to purple.
- Ninus. Yellow, changing to pink, neat.
- Solfaterre. Golden yellow, margined straw.
- Lizzie Cook. Neat compact habit, profuse bloomer.
- Delicatissima. Pink lilac, trailing habit.
- Ne Plus Ultra. Purple and yellow, fine truss.
- Raphael. Orange, rose and purple, close habit.
- Mons. Schmitt. Orange yellow, changing to crimson scarlet.
- Rosa Mundi. White and rose, nice color.
- Victoria. Pure white, with lemon eye.

AZALEA INDICA.

Our collection of Indian Azalea embraces the most select English and Continental varieties.

Price 25 to 50 cents each and upwards, varying with size and age of plants, (save where priced.) \$2 to \$3 and upwards per dozen.

- Alexander II. White, tinted with rose, fine.
- Amœna. Bright rose purple, (hardy.)
- Baron Ed. Osey. Very bright orange, with broad wavy lobes, amaranth rose.
- Bernhard Andrea. Rosy purple, double, very beautiful.
- Belle Gantoise. Clear lilac, edged with white, in the way of *Albocincta*.
- Baronne de Vrière. Flowers enormous, snow white, lobes very large with undulated edges; of a very delicate texture and ornated with some red stripes and sulphur blotch.
- Comtesse de Flandre. Large, flat bright rose, a beautiful smooth flower.
- Charmer. Bright amaranth, good form, of great substance.
- Candeur. Pure white, fine form, beautiful.
- Comtesse de Beaufort. Rose, blotch deep crimson, with maroon reflex, a very rich color, extra fine.
- Duchesse Adélaïde de Nassau. Large, flowers of very fine form, the upper lobes amaranth.
- Gledstanesia. Pure white, flaked with carmine.
- Gledstanesia Formosa. Pure white, striped carmine.
- Grossfürstin Helene. Very large fringed, shaded salmon deep amaranth blotch.
- Her Majesty. Scarlet flower large, finely formed.
- H. Von Aumale. Light ground, thickly marked with broad bands of deep scarlet.
- Jean Van Volxem. Exceedingly rich in streaks of all shades and especially in well defined bands of rosy orange.
- John Gould Veitch. Its shape and grand coloring is similar to a Sigismund Rucker, color a lilac rose strongly netted and bordered with white, splendidly blotched with bright saffron, a grand exhibition plant, 50 cts.
- Louise Von Baden. A beautiful pure white, of the finest form.
- Madame Cannart d'Hamale. Satiny white, occasionally striped.
- Mars. Bright orange red, richly spotted with crimson.
- Météor. Bright rose, very double flowers, most free.
- Princess Charlotte. Very large, of a deep rose, with dark amaranth blotch.
- Magnifica Alba Pleno. A magnificent double white variety, very pure, fine.
- Madam Marie Van Houtte. Immense semi-double flowers, white, striped, flaked and blotched with rosy salmon, like a carnation, extra.
- Mont Blanc, (new.) A very fine variety, with double flowers, pure white, with petals of great substance \$1.00.
- Nonpareil. Orange, bordered with white, and spotted with chocolate.
- President Van den Hecke. Pure white, striped with rose, double excellent.
- Narcissiflora. Double white, very early.
- Dona Maria. Tender rose, edged with white, superior to *Albocincta*.
- Duc de Nassau. Dark rosy carmine, very large semi-double flowers, broad and large flame colored blotch.
- Fascination. Rosy pink, edged with white, and spotted with crimson.
- Flower of the Day. Fine large white, striped with rose.
- Flag of Truce. Pure white, large and double, extra fine.
- Francois Devos. Clear deep crimson, double extra.
- Glory of Sunninghill. Salmon pink, large.
- Queen of Scarlets. Brilliant scarlet, large size and broad round overlapping petals, marked with rich crimson spots on a violet ground, splendid.
- Queen of Roses. A charming variety of a warm rose color, with broad rounded flower lobes, upper lobes relieved by a cloud of small crimson specks.
- Queen of Double Stripes. A beautiful pure double white flower, occasionally coming elegantly tipped and streaked with rose, at other times a fine self.
- Queen of Double Whites. Flowers large double of the purest white, profuse bloomer.

- Queen of Whites. A finely formed flower of the purest white, very fine.
- Roi de Beautés. Light salmony rose, suffused with violet, edged with white, double, very showy.
- Reine des Roses. Deep clear rose, red spots, very large and attractive, a profuse bloomer.
- Senator Kestler. Rosy crimson, very fine shape and beautiful flower. 50 cents.
- Splendidissima. White ground, striped with carmine.
- Stella. Bright scarlet, deep violet stain on upper petal.
- Virgin Queen. Pure white, fine form, beautiful.
- Vittata Crispiflora. White, striped with purple and crimson, very free.
- Virginalis. Pure white, edge of flower frilled.
- Vivid. A fine rich scarlet, beautiful.
- Jean Verschaffelt. Deep orange, shaded with buff, large handsome flowers, the edges of which are crisped, rich blotch.
- Madam Léonie Van Houtte. Very fine white, flaked with rose, blotch sulphur yellow.
- Marquis of Lorne. It is the most beautiful orange with large lobes and saffron yellow blotch.
- Mad. Ambroise Verschaffelt. Magnificent variegated variety, constant in its stripes; flowers white, washed rose and striped crimson. 50 cts.
- Souvenir du Prince Albert. Large double flowers, lobes broad, half white and half rose, edges pure white. 50 cts.

The larger plants cannot be sent by mail.

CAMELLIAS.

Of this beautiful class of plants, we grow a very choice selection.

Price 50 cents to \$1 each and upwards, according to size.

BEGONIAS.

Varieties of dwarf growth, cultivated chiefly for their beautiful foliage.

Price 25 cents each, \$2 50 per dozen, (save where priced.)

- Begonia Metallica. Veins of a dark metallic color; ground color light metallic shining green, flowers pink. 50 cts.
- Louis Schwatzer. The most beautifully marked foliage in the style of Rex.
- Alexander Von Humboldt. Fine foliage.
- Bettine Rothschild.
- Gem. Fine
- Grace Fahnestock. Neat foliage.
- J. L. de Boucher.
- Marshallii.
- Mons Victor Lemoine. Beautifully marbled like lace.
- Mad. Wagner.
- Mrs. H. Low.
- Negro.
- Picta. Spotted.
- Philadelphia. Fine.
- Queen of England.
- Queen Victoria.
- Rex.
- Robt. Buist.
- Roi Leopold.
- Smaragdina. Leaves beautiful bright green. 50 cts.
- The O'Donohue.

The following species and varieties are of taller growth cultivated chiefly for their flowers:

- Argyrostigma Picta. Leaves bright green spotted with white.
- Coccinea. See NOVELTIES.
- Incarnata. Flowers pink, a good winter bloomer.
- Foliosa. Drooping species, light pink flowers.
- Glaucophylla Scandens. See NOVELTIES.
- Evansiana. A beautiful species.
- Fuchsioides alba. White flowered.
- Hybrida multiflora. Scarlet.
- Nitida. Flowers pure white.
- Saundersonii. Scarlet.

- Verschaffeltii.
 Gibsonii. This variety has double flowers.
 Imperialis.
 Insignis. Flowers rosy crimson, light centre, fine winter bloomer.
 Nigricans. Dark shining crimson foliage, flowers pink.
 Palmata. Palmated.
 Parviflora. Flowers white.
 Odorata. Sweet scented.
 Richardsiani. The flowers grow from leaf axils near the ends of the branchlets, and are white.
 Parnelli. Foliage light green, beautifully spotted with white.
 Weltoniensis. Pretty waxy pink flowers.

FERNS.

ADIANTUM GRACELLINUM.

A most elegant and distinct Fern, with very light and graceful fronds; the multiplicity of minute pinnules impart to the plant a peculiarly charming appearance; the texture of the fronds, which are about a foot long and nine inches across, is thin and fragile; color an olive green. 50 cts.

*ADIANTUM HENDERSONII.—(*New*.)

A very distinct and elegant stove Maiden Hair Fern. The fronds attain a length of from 30 to 40 inches, and have a graceful arching habit. The mature fronds are a beautiful dark green, the young fronds a bronzy crimson; a tint they retain a considerable time. \$1.00.

*ADIANTUM VEITCHII.

"A well marked and extremely ornamental Fern, attracting the eye by its rigid character and the symmetry of its growth. The young fronds are very beautiful, being of a fine red color, that of the mature fronds a pale green." \$1.00 each.

ADIANTUM AMABILE.

A very elegant species, with fronds of a beautiful light green color, small and elegant in regard to the size and form of their ultimate divisions. It has been introduced from Peru, and is a free-growing cool stove Fern, attaining the height of from 15 to 18 inches. 30 to 50 cents.

**ADIANTUM SEEMANNI*.—(*New.*)

A noble species, producing fronds 2 feet long, with a comparatively slender glossy black stipe, bare at the lower part, and bearing, towards the top, from 4 to 8 magnificent large pinnæ. \$1 each.

ADIANTUM FARLEYENSE.

The most magnificent variety of this handsome family; the fronds are of the size and form of *A. trapeziforme*, but pendant, and all the large pinnules are deeply fringed and crisped. 50 cts, to \$1.00.

ADIANTUM PERUVIANUM.—(*New.*)

A magnificent species, rivalling the well-known *A. trapeziforme*, in the size of its pinnules, and surpassing it in the elegance of its large compound drooping fronds. It is a strikingly ornamental Fern. 30 to 50 cents.

ADIANTUM PRINCEPS.

A very handsome and distinct *Adiantum* from New Granada, with long arching fronds; pinnules large and closely set upon the rachis; of a pleasing green. This plant will make a fine specimen for exhibition purposes. A splendid Fern. \$1.00 each.

**ADIANTUM SANCTÆ CATHARINÆ*.

The fronds of this fine ornamental plant are from one to two feet in height, and decompound. It is a very grand plant, and succeeds well in a warm greenhouse. \$1.00.

POLYPODIUM KURRUDRIANUM.—(*From the Sandwich Islands.*)

"A new and remarkably beautiful Fern. From its manner of growth it is peculiarly adapted for culture in hanging baskets. Of a drooping habit, it first sends out a number of wooly fronds of a dark brown color. After the rope-looking fronds have attained to the length of from twelve to fifteen inches, they unroll and become a beautiful bright green, and continue to grow until they are from five to six feet long. 25 cents.

DAVALLIA MOOREANA.

A most beautiful Fern. The stipes are quite smooth and pale colored. The fronds are from 2 to 3 feet long, and from 1 to 2 feet wide at the base, triangular and pointed, of a graceful arching habit of growth, and most elegantly cut into a multitude of small blunt oblique soriferous segments; color a pale green. 30 to 50 cts.

ASPLENIUM LONGISSIMUM.—(*New.*)

A very useful stove basket Fern; its pendulous fronds are often from 5 to 7 feet long, and are produced in great abundance, so that the plant is well furnished at all seasons; the pinnæ are of more coriaceous texture than those of most basket Ferns, and thus the duration of the frond is prolonged. 50 cents.

NEPHROLEPIS DAVALLIOIDES FURCANS.—(*New.*)

A beautiful and distinct crested variety of the Java Fern *Nephrolepis davalloides*. It is a noble Fern, of robust growth, sending forth, as from a central tuft, numerous arching fronds from three to four feet long. 50 cts.

	Per plant.
LOMARIA GIBBA.....	25 to 0 50
LOMARIA GIBBA CRISPA— <i>crisped leaved</i>	0 50
LOMARIA CILIATA	0 50

Dwarf tree ferns of great beauty which cannot be too highly recommended to all lovers of this beautiful class of plants.

PTERIS SERRULATA MAXIMA CRISTATA.—(New.)

An exceedingly pretty Fern; the leaves are large and finely crested. 50 cts.

Todea Fraserii.
Superba.

Todea pellucida.
Wilksiana.

There is no family of Ferns which approaches this in grace and beauty. For wardian cases, hanging baskets, &c., they are indispensable.

PERENNIAL PHLOXES.

This tribe of plants will succeed in any good, rich soil, not over dry. To the amateur they are invaluable. Perennials perfectly hardy, producing a profu-

sion of bloom during summer and fall. There is every shade of color, from pure white to rich purple and crimson.

Our collection of Phloxes received First Premium from the Maryland Horticultural Society, the past three seasons.

Price 20 cents each, \$2 per dozen.

Maurandya Barclayana. A very elegant vine, flowers purple.....	0 15
Alba. A fine white variety.....	0 15
Rosea. Flowers of bright rose.....	0 15
Madeira Vine, (Boussingaultea Baselloides.) A vine of rapid growth with fragrant white flowers.....	\$1 per doz. 0 10
Variegata. Prettily variegated.....	0 25
Rhodochiton Volubile. See NOVELTIES.....	0 50
Physianthus Albans. A fine climber, with white flowers.....	0 20
Solanum Jasminoides. Flowers rosy purple, free growth.....	0 20
Passiflora Incarnata. Fine hardy Passion flower.....	0 20
Cœrulea. Blue.....	0 20

MISCELLANEOUS GREEN-HOUSE PLANTS.

	Per plant.
Abutilon Boule de Nieve. (A colored plate, 1874.) Pure white flowers...	0 15
Duc de Malakoff Variegata. Large leaves, four to six inches in width, being richly blotched or mottled with white and gold.	0 15
Duc de Malakoff.....	0 15
Marmoratum.....	0 15
Variegatum.....	0 15
Acalypha Tricolor. Foliage irregularly blotched and mottled with crimson; a very distinct plant, fine for bedding.....	0 25
Macrophylla. A large leaved variety, blotched and mottled, fine bedding plant.....	0 25
Acacia. Sorts.....	0 50
Agave (American Aloe) Americana.....	25 to 0 50
American Variegata.....	0 50
Agave Antillerium.....	0 50
Xylolacantha.....	0 50
Utahensis.....	1 00
Montana.....	
Anthericum Variegatum. This fine plant has been compared by many to Pandanus Veitchii. The foliage is of a bright grassy green, beautifully striped and margined with creamy white.....	0 30
Allamanda Cathartica.....	0 30
Nobilis. See NOVELTIES.. Allamanda Nerifolia.....	0 30
Hendersonii or Wardiana.. See NOVELTIES.....	
Ardesia. A pretty plant which gives a profusion of scarlet berries during winter.....	25 to 0 50
Alba. White berried.....	25 to 0 50
Æschynanthus Lobbianus. A trailing plant, suitable for suspending baskets, &c., flowers crimson.....	0 30
Aphelandra. Nitans. Very dark foliage.....	0 50
Variegata. Leaves striped with white.....	0 50
Asclepias Curassavica. A very ornamental plant for summer decoration, blooming from July to November, growing about three feet in height. The stem terminated with heads of yellowish scarlet flowers.....	0 25
Aspidistris Lurida Variegata. A large foliage plant, leaves finely striped with white and green. A very valuable plant and nearly or quite hardy.....	0 30
Bougainvillea Glabra. This is the freest grower and bloomer of the genus, a very fine winter blooming plant; color a rosy pink.....	0 40
Browallia Elata Cœrulea Major. A plant of quick, compact growth, with rich blue flowers, fine for bedding or winter blooming in the greenhouse.....	0 15
Brugmansia, (Datura.) Knightii. Beautiful large double white flowers.	0 25
Bignonia Venusta. A beautiful free flowering winter climber, flowers orange.....	0 40
Speciosa. A very splendid new species, flowers pink.....	0 50

	Per plant.
<i>Cissus Lindenii</i> . The foliage of this showy plant is bright green, veined and banded with silvery white.....	0 25
Discolor Foliage beautifully shaded with silver, crimson and purple.....	0 25
<i>Cyperus</i> , (Nile Tufted Grass) <i>Laxus</i> . An exceedingly graceful and distinct species.....	0 20
Alternifolius. A tufted grass with alternate leaves.....	0 20
Variegatus. A variety of the last, with handsomely variegated leaves.....	0 30
<i>Ceanothus Gloire de Versailles</i>	0 25
<i>Centradenia Grandiflora</i> . Rose colored flowers.....	0 25
<i>Coccoloba Platyclada</i> . A singular flat stemmed plant, has no leaves like a cactus.....	0 25
<i>Campylobotrys Discolor</i> . Pretty variegated foliage.....	0 25
<i>Deeringia Variegata</i> . Variegated foliage.....	0 25
<i>Daphne Odorata Alba</i> . White flowers, very fragrant.....	0 50
O. Rubra. Nearly white, outside of flower shaded, very fragrant; the variety usually grown.....	25 to 0 50
*Mazeli, (new.) This beautiful new Japanese Daphne differs from all the preceding varieties in the flowers being borne on short lateral branchlets all along the branches, instead as usual in dense clusters at end of the branches. Flowers during winter; tube rosy-crimson, petals white shaded with pink, very fragrant foliage, variegated with yellow. Small plants.....	1 00
<i>Duranta Bungertnieri</i> Variegata. Centre of leaf deep green, margined with golden yellow.....	0 25
<i>Echeveria Secunda Glauca</i> . Of a beautiful glaucous hue.....	0 20
Metallica. Large leaves of a rich metallic hue.....	0 20
Metallica Minor. Similar to last, but smaller.....	0 20
Mexicanum.....	0 20
<i>Echeveria Sanguinea</i>	0 20
Retusa.....	0 20
Pretty dwarf plants, similar to the House Leek.	
<i>Eranthemum Andersonii</i> or <i>Elegans</i> . This very beautiful plant is of free vigorous growth, producing long terminal spikes of its pure white and rich lake flowers during the winter months, which last a long time in perfection—a plant of great beauty.....	0 25
Pulchellum. Flowers deep blue during winter, very handsome.....	0 25
Cooperii. Pretty foliage.....	0 25
Tuberculatum. Flowers during winter, pure white in great profusion.....	0 30
<i>Echites Nutans</i> . Leaves dark velvety green with rose colored veins. A greenhouse climber.....	0 25
<i>Erythrina Crista Galli</i> . Beautiful summer flowering plant with dark crimson coral-like flowers. The roots, which are fleshy, can be put away in a cellar, like <i>Dahlias</i> , during winter. There is no plant more valuable than this for bedding out in our climate, and very beautiful.....	0 25
Madame Belangier. A very beautiful coral plant, dwarf compact habit, very free flowering.....	0 50
<i>Eupatorium Riparium</i> . White, blooming January until March.....	0 20
Elegans. Fine winter bloomer, pure white.....	0 20
<i>Francisia Eximia</i> . A pretty winter flowering plant with purplish violet flowers.....	0 50
<i>Euphorbia Sanguinea</i> . A good old plant, the foliage is a purplish crimson, distinct from other dark colored foliage plants.....	0 25
Atropurpurea. Foliage blackish purple, fine for bedding from its very dark color.....	0 25
<i>Jacquinæflora</i> . Invaluable for winter blooming flowers of the richest scarlet.....	25 to 0 50
Splendens. Blooms during winter, flowers scarlet.....	0 30

	Per plant.
<i>Fabiana Imbricata</i> . A heath-like plant with pretty white flowers.....	0 30
<i>Ficus Repens</i> . An admirable plant for hanging baskets, etc.....	0 15
Minor. Small leaved.....	0 15
<i>Fittonia Argyroneura</i> . A trailing plant with light green foliage, beautifully striped with white.....	0 20
<i>Grevillea Robusta</i> . A fine decorative plant.....	25 to 0 50
<i>Gymnostachyum Pearcei</i> . A superb species, and in every respect one of the most beautiful of foliage plants.....	0 20
Giganteum. In this beautiful species we have a plant of equal beauty with others of the genus.....	0 20
Verschaffeltii. Stems and branches are of a reddish tinge, red leaf stalks, upper surface of the leaf smooth and richly painted with reticulations which vary from red to rich pink, passing into brilliant scarlet.....	0 20
<i>Graptophyllum Pictum</i> . Leaves deep green with a large blotch of bright gold in the centre, a beautiful foliage plant requires a hothouse.....	25 to 0 50
Versicolor. Various colored	0 30
<i>Hoya Carnosa</i> Waxplant. A very beautiful and well-known plant	0 25
<i>Carnosa Variegata</i> . Centre of leaf green margined with silver.....	0 25
Bella. A delicate growing but charming species.....	0 50
Paxtonii. A distinct and beautiful plant.	0 50
<i>Hardenbergia Comptoniana</i> . Pretty greenhouse climber with rose and purple flowers.....	0 40
<i>Hexacentris Mysorensis</i> . A beautiful climbing plant, flowers yellow and crimson.....	0 75
<i>Impatiens Hookeriana</i> . A very pretty plant, blooms freely during winter.....	0 50
<i>Justicia Carnea</i> . A winter bloomer, flowers pink.....	0 20
<i>Jasminum Grandiflorum</i> . Beautiful white Jessamine.....	0 25
Revolutum. Yellow.....	0 25
<i>Kadsura Japonica Marginata</i> . A beautiful half hardy climber, foliage green, margined with gold.....	0 50
<i>Kleinea Repens</i> . A free flower, bushy in habit, and the leaves are about three inches long, by one-quarter of an inch in diameter, perfectly round, and a bright blue in color; a succulent plant of easy growth..	0 30
<i>Linaria Cymbalaria</i> , (Kenilworth Ivy.) A pretty trailing plant.....	0 10
<i>Lavendula Spica Alba</i> . White lavender.....	0 25
<i>Leonothus Leonorus</i> . This is an old but very beautiful plant, which succeeds admirably bedded out during summer, where it will produce its remarkably long terminal spikes of brilliant orange colored flowers in dense zones throughout the summer.....	0 30
<i>Leea Coccinea</i> . A large fine foliage plant..	0 40
<i>Lingularia Kempferi Argentea</i> . A herbaceous plant nearly or quite hardy, with large finely variegated leaves.....	0 40
<i>Libonia Penrhosiensis</i> . Freely producing its fine showy flowers, which are of a bright rich crimson color. It blooms in the depth of winter.	0 25
Laurestinus, (<i>Viburnum Tinus</i> .) For winter flowering.....	0 25
<i>Lasiandra Splendens</i> . Violet purple flower, fine for winter.....	0 40
<i>Lotus Jacobeus</i> . An old, though scarce plant, producing continually and in the greatest profusion, beautiful dark brown, fragrant, pea shaped flowers.....	0 25
<i>Lobelia Blue King</i> . Lovely blue.....	
Paxtonia. Blue, white with white eye.....	0 10
Many beautiful varieties each.....	0 10
Fine for suspended baskets, vases, &c.	
<i>Mahernia Odorata</i> . Winter bloomer, flowers yellow, fragrant.....	0 15
<i>Mikania Violacea</i> , (Parlor Ivy.) A creeping plant with purplish green upper surface of leaf; under glossy carmine.....	0 15
<i>Mesembryanthemum Cordifolium Variegatum</i> . An exceedingly attractive variegated foliage plant. The branches are furnished with fat fleshy heart-shaped leaves, distinctly margined with cream color.....	0 15

	Per plant.
<i>Myrtus Communis</i> . Small leaved Myrtle.....	0 20
<i>Meyenia Erecta</i> . Purple flowers, pretty plant.....	0 25
Alba.....	0 25
<i>Myrsiphyllum Asparagoides</i> , (<i>Smilax</i> .) Beautiful climber for wreaths, cut flowers, etc.....	10 to 0 20
<i>Magnolia Fuscata</i> . A very fragrant species	0 50
<i>Mandevillea Suavolens</i> . Greenhouse climber, with lovely white fragrant flowers.....	0 50
<i>Mimulus Muschatus Harrisonii</i> . The flowers are rich golden yellow color and delicate odor and are attractively spotted with rich brown on the lower segments. The foliage has the same agreeable fragrance as the <i>Old Musk</i>	0 25
<i>Othonna Crassifolia</i> . An exceedingly beautiful plant for hanging baskets,	0 15
<i>Ophiopogon Spicatum Argentea Marginatum</i> . A half hardy Japanese plant, with broad grassy leaves, margined with white, and producing freely white flowers.....	0 30
Aureo Marginatum. Similar to the last, but in this variety the variegation is a deep yellow.....	0 30
<i>Olea Fragrans</i> . Fragrant Olive.....	25 to 0 50
<i>Peperomia Argyrea</i> , Magnolifolia, Verschaffelti,	Dwarf growing plants, suitable for baskets, and warden cases. The leaves are delicately blended, being bright green along the line of the nerves..... 0 15
<i>Plumbago Capensis</i> . We have no plant of the same color of flowers to approach this for summer bedding. Plants bedded out in May will continue flowering through the summer; color a delicate azure blue. The plants can be kept in a cellar during winter.....	
Larpentæ. Like the last, this blooms through the summer; color bluish purple.....	0 20
Rosea. Flowers rose color, fine for bedding or winter blooming,	0 25
<i>Poinsettia Pulcherrima</i> . Fine winter blooming plant.....	25 to 0 50
<i>Pittosporum Tobira</i> . Very fragrant shrubs.....	0 25
Variegata. Variegated	0 25
<i>Pleroma Benthamiana</i> . Purple flowers, winter blooming.....	0 30
<i>Pilea Muscosa</i> . Artillery plant.....	0 15
<i>Pothos Argyrea</i> . A pretty foliage plant.....	0 40
<i>Rhodea Japonica</i> . Leaves green, edged with yellow.....	0 40
<i>Rogiera Amœna</i>	0 30
Gratissima, (new).....	0 50
All are lovely winter flowering plants, as fragrant as the <i>Heliotrope</i> .	
<i>Russellia Juncea</i> . Pretty basket plant, scarlet flowers.....	0 25
<i>Ruellia formosa</i> . A free flowering winter blooming plant, with bright scarlet flowers.....	0 25
<i>Rhyncospermum Jasminoides</i> . A lovely winter blooming climber, with white fragrant Jasmine-like flowers, very valuable... 0 25	
Variegata	0 25
<i>Reinecki Carneæ Variegata</i> . A pretty variegated plant.....	0 25
<i>Senecio Scandens</i>	0 10
Macroglossum. A variety with deeper and more shining foliage,	0 10
<i>Sanchezia Nobilis Variegata</i> . Leaves upwards of twelve inches in length, and of most intense green, the veins being broadly margined with golden yellow.....	0 25
<i>Sempervivum Arboreum Atropurpurea</i>	0 25
<i>Sericographis Ghiesbreghtii</i> . Fine winter bloomer	0 25
<i>Thysacanthus Rutilans</i> . The flowers of this plant are borne in long pendulous racemes, having a very graceful appearance, bright scarlet color.....	0 40
<i>Thunbergia Laurifolia</i> . This magnificent climber cannot be too highly praised. To the Florist, and all who require winter blooms, it is indispensable, as it flowers in the greatest profusion during the winter months. Color delicate violet blue.....	0 40

	Per plant.
Fragrans. Another valuable winter-blooming plant, flowers pure white, and free flowerer.....	0 30
Tecoma Jasminoides. Flowers white, with crimson centre, a lovely climber.....	0 30
Torenia Asiatica. Rich blue and dark violet.....	0 20
Tradescantia Zebrina. Zebra plant.....	0 10
Striata. A pretty striped variety.....	0 15
Repens Vittata.....	0 10
Discolor. Two colored.....	0 25
Aquatica. Small foliage.....	0 10

MISCELLANEOUS BEDDING PLANTS.

1 <i>Dracæna</i> .	2 Caladiums, (fancy sorts.)
2 New Pelargoniums.	2 New Roses.
2 New Double Geraniums.	1 <i>Hypericum Patulum</i> .
2 New Zonale Geraniums.	2 New Hibiscus.
1 Croton.	

****10 Collection.***

Embraces the collection of plants as in the \$15 collection, from *Monthly Roses* to *Crape Myrtles* inclusive.

****5 Collection.***

Half the \$10 collection.

****Plants Free by Mail.***

We have for some years forwarded plants in large numbers by mail to the most distant parts of the Union, as Texas, Utah, the Pacific Coast, with perfect success. All of which are properly labeled and carefully packed in boxes or oiled paper. The following plants will be sent by mail, prepaid, at the prices annexed, or any new plant can be forwarded in the same way. No order for less than one dollar will be filled. This rule is necessary, as the mailing of one or two cheap plants will not compensate us, in the hurry of business, for the time and labor of packing, directing, pre-paying postage, etc. Our selection, one-quarter of a dozen at dozen rates :

	Per dozen.

Garden and Flower Seeds.

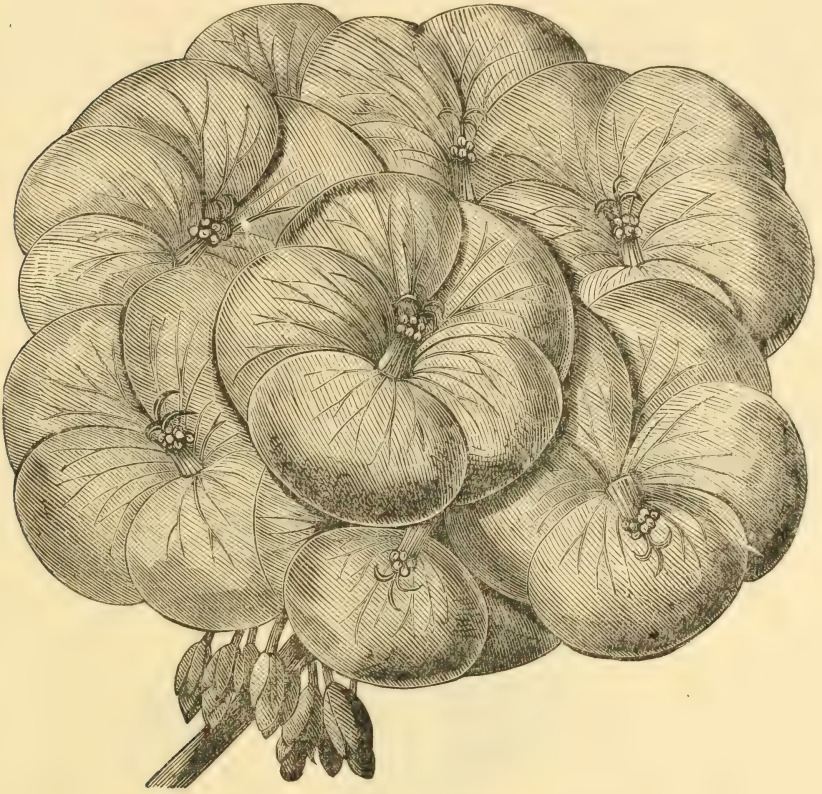

Having been many years engaged in the Seed business, both as a grower and dealer, I can, with confidence, recommend all articles offered. They are NEW, PURE and GENUINE. See *Catalogue No. 2.*

Fruits, Ornamental Trees, Evergreens.

A very extensive stock of Fruit, Ornamental Trees, Evergreens, Shrubs, Roses, etc., are grown at my Nurseries, on the Seventh Street Road, all of which are of the most vigorous description, and are offered at low rates. See *Catalogue No. 1.*

HARRY KING--New Zonale.

This is certainly the most magnificent vivid crimson Zonale ever yet sent out, and the above engraving conveys but a very inadequate idea of its immense trusses; color intense and brilliant scarlet, considerably darker and more glowing than *Jean Sisley*; large white eye, each pip of fine shape, and of great substance, which causes every petal to reflex as soon as each bud expands, consequently each flower remains a longer time in perfection than any other Zonale; it also has the valuable property of keeping its centre well filled up. The color of this variety totally eclipses all other older kinds, and is unquestionably the most magnificent crimson scarlet Zonale ever sent out. 15 cents each.

CORDYLINE AUSTRALIS.

An Australian Plant of much Grace and Beauty, with very Long, Narrow and Graceful Foliage, admirable for Vases, single specimens on Lawns, &c.

JOHN SAUL,

Is requested to forward the following List of Plants to

Name _____ Post Office _____

Express Office County State

For which find amount enclosed:

Post Office Order, \$; Cash, \$; Draft, \$

Date, 1880.

PREMIUMS.

I was Awarded the following Premiums at the

CINCINNATI ÷ INDUSTRIAL ÷ EXPOSITION,

September, 1879.

FIRST PREMIUM—"Best Group of Crotons."

FIRST PREMIUM—"Best Single Specimen of Croton."

FIRST PREMIUM—"Best Group of Dracænas."

FIRST PREMIUM—"Best Group of Marantas."

FIRST PREMIUM—"Best Single Specimen of Maranta."

FIRST PREMIUM—"Best Single Specimen of Dieffenbachia."

SECOND PREMIUM—"Second Best Group of Variegated
Foliage Plants."

FIRST PREMIUM—"Best Single Specimen of Variegated
Foliage Plant."

SPECIAL PREMIUM—"For Davallia Mooreana."

I have also been Awarded for several years, leading Premiums by the Maryland Horticultural Society for Dracænas, Crotons, Foliage Plants, Stove and Green House Plants, Ferns, &c. In Cut Flowers, for Dahlias, Roses, Phloxes, Herbaceous Plants, &c.

Campanula Medium Calycanthema A
Pure White.

Campanula Medium Calycanthema Cæ.
Dark Blue.

Campanula Medium Calycanthema Lilac.

These splendid biennials are almost unrivalled for their brilliant effect in the flower garden, and as single specimens for conservatory decoration, it is scarcely possible to over-estimate their value. In habit the plant differs but little from the well-known form of the old blue and white Canterbury Bell, but while the corolla is much larger, the calyx, in addition, is enlarged to nearly four inches in diameter, presenting the form of a saucer, and changed from its ordinary green color to the same as that of the corolla, thus adding considerably to its beauty. The fact of its coming true from seed renders it easy of access, placing it within the reach of all amateurs and lovers of their garden.

Price per Plant, 25 cents.
